FRENCH CLAIM AN ADVANCE, BUT GERMANS DENY IT

ONE MORE BRITISH STEAMER SENT DOWN

Ptarmigan is Torpedoed and Sunk by Kaiser's Submarines--Grandson of Gladstone is Killed.

Today's War News Given in Summary.

Four attacks by the French are mentioned in the Berlin war office statement today and all are said to have resulted in failure. The Paris statement, however, asserts that in the Ailly wood a section of ground 400 yards long and 100 yards deep was won, and that in Alsace an advance of nearly one mile was made.

The British steamer Ptarmigan has been sunk by a German submarine in the North sea. Eleven men of her crew of twenty-two were saved. Four steam trawlers flying the flag of Holland have been seized by German warships and taken into Cuxhaven.

It was announced in the house of commons today that the British casualties from the beginning of the war to April 11 amounted to 139,347 men.

The German war office today declared that the Russian attempt to invade Hungary had failed.

London asserted that a new Zeppelin raid made on the northeast coast of England by German aviators had done only negligible damage.

London, April 15.—The British steamer Ptarmigan has been torpedoed and sunk by a German submarine near the North Hinder light ship in the North sea. Eleven sailors of the Ptarmigan's crew of twenty-two men were saved. The Ptarmigan had a tonnage of 475 net and was built in 1910. The vessel was 218 feet long and sixteen feet deep. She was owned by the General Steam Navigation company.

Zeppelin Covers Long Trip.

The skippers of the British trawlers who sighted the Zeppelin aircraft which last night raided the northeast coast of England, describe her as the Z-9, one of the very latest type of German airships. The trawlers sighted the craft 100 miles from land. They believe she came from Helgoland. If she returned to that island the calculation is made that she must have covered on her trip something like 800 miles.

The trawlers came at full speed for port immediately after they recognized the Zeppelin with the object of giving warning, but of course they were easily outdistanced by the airship.

Gladstone's Grandson Killed.

William L. Gladstone, grandson of the great liberal statesman, has been killed in action in France. Particulars of his death are lacking. Mr. Gladstone was 82 years old. He was a liberal member of the house of commons. In 1910 and 1911 he served as an attaché to the British embassy in Washington.

Demands Speed on Munitions.

An important committee under the chairmanship of David Lloyd George, the chancellor of the exchequer, to organize and speed up the supply of munitions of war was completed today.

Premier Asquith announced the composition of the committee to the house of commons. He explained that its functions were "to insure the prompt and most efficient application of all the available productive resources of the country for the manufacture and supply of war munitions for the army and the navy and with authority to take all necessary steps for that purpose."

The British war office has appointed a departmental committee to assist in

New Twist to the Tangled Affairs of Financial Concern at Merom.

Indianapolis, Ind., April 15.—Suit has been brought in this, Sullivan circuit court, against the Merom state bank, of Merom, Ind., for a receiver, according to information received today. The Merom state bank was closed on the order of the state auditor some days ago, after it was found impossible to straighten out a tangle in the bank's affairs, resulting from lending money to the Anchor Life Insurance company against which a suit has been brought for receiver by the state, Harry L. Arnold, attorney in the state insurance department, having been designated by the Marion superior court to handle the affairs of the company. Approximately \$20,000 of the bank's money had been lent to the insurance company, it is said.

JAPAN OUT IN DENIAL

Rumors of Establishment of Naval Base in Mexico "Preposterous."

HAS NEVER HAD SUCH INTENTION

Embassy Explodes Turtle Bay Sensation Wired from Los Angeles.

Washington, April 15.—An official statement authorized by the Japanese embassy today characterized as "preposterous" reports that a naval base had been established at Turtle Bay, Lower California and declared "There never has been any intention on the part of the Japanese government to locate a naval base or occupy any territory on the west coast of Mexico."

Operations of Japanese warships in Turtle Bay, embassy officials said, were solely for the purpose of salvaging the stranded cruiser Asama. It was stated that while detailed reports from the scene had not been received, as the consul general at San Francisco was handling the matter, landing on the shore of the bay probably had been found necessary in connection with the salvage work. Of reports that a naval base had been established the statement said:

"It is more than absurd; it is preposterous. There never has been any intention on the part of the Japanese government to locate a naval base on the west coast of Mexico. A few Japanese fishermen, about a score in number perishing here, frequent the waters of this bay but they have no connection whatever with the naval establishment."

Did Not Disturb Washington.

Dispatches from Los Angeles telling of the gathering of foreign warships in the secluded Mexican haven, of a large camp ashore and of mines laid in the harbor created no sensation among Washington officials. Assistant Secretary Roosevelt said the navy department was without advice as to just what had happened but that if anything extraordinary was going on it certainly would have been reported by the American warships in the vicinity. He added that it would not be unusual if the Japanese had landed in connection with their efforts to save the Asama.

When the Asama first went ashore and news of her plight came to Washington, every effort was made to prevent the information reaching Germany before assistance could be sent. Responding to the call for immediate action for the personnel of the Asama Admiral Howard hastened to Turtle Bay from San Diego on his flagship, the cruiser San Diego and the cruiser Raleigh also went to the scene. But before the aid of these ships could be extended a Japanese collier and two Japanese warships appeared and Admiral Howard steamed away.

HOLD THEIR FIRST BUSINESS MEETING

Undertakers of Northern Indiana to Perfect Organization.

The first business meeting of the Northern Indiana Undertakers association which was formed in this city February 19, will be held Thursday evening at the Elks' temple on West Berry street. A banquet will be served and following this, business matters will be disposed of. The organization will adopt a constitution and a set of by-laws at this meeting.

The committee of thirty men from various towns in Northern Indiana who was appointed to draw up constitution and a set of by-laws arrived in the city Thursday noon and stated that their work had been completed.

It is expected that the members of the association will decide to become affiliated with the state organization, which body they expect to entertain in Fort Wayne in 1916 at the annual session. The association feels reasonably sure that they will be able to have the undertakers of the state meet here next year for by that time Fort Wayne will undoubtedly have a large assembly hall.

All those members who arrived Thursday noon were taken to the Palace theater in the afternoon as guests of the secretary, Will H. W. Peltier. Following the performance they will meet at the Elks' temple where a banquet will be served at 6:30 o'clock.

WILL CONTESTANTS LOSE THEIR FIGHT

Jefferson City, Mo., April 15.—The supreme court of Missouri yesterday denied the application of contestants of the will of James Campbell, millionaire public utilities financier, for a writ of prohibition to prevent the circuit court of St. Louis from hearing the case first only on the issue of whether Mrs. Lois Campbell Burkhart is the daughter of James Campbell.

The entire estate of about \$16,000,000 was left to Mrs. Florence Campbell, the widow, and Lois Campbell, referred to in the will as "my daughter" by Mr. Campbell. After their death it is to go to St. Louis university. The will is being contested by a number of distant relatives of Mr. Campbell who claim he died without leaving an heir and that he was unduly influenced in making the will.

SENTINEL NEWSIES GUESTS AT LYRIC

Little Merchants Enjoy Another Step in Week's Funfest.

Yesterday was another big day for the little street merchants who sell the Daily Sentinel, about 300 of them being entertained at the Lyric theater, where a special program was arranged for them by P. S. Warner, the manager.

The boys gathered at the Sentinel office at 6 p. m. yesterday and after a short talk by Tom Tomison the Newsboy King, the small army of youngsters proceeded through the principal streets, yelling and cheering with all their might until they reached the theater. The boys marched quietly into the theater and showed their appreciation by liberally applauding each and every picture.

Today the Newsboy King will appear on the downtown streets selling the Sentinel in his usual manner, his object is to show the inexperienced newsies how to feature the front page headlines, how to use their voices and also outline the large city fashion, when big news appears in the papers. Tomison has some voice for a little fellow, and will no doubt open up the traffic when he turns loose.

Tonight at 6 p. m. the boys will meet at the Sentinel office where they will be given free tickets for the Minnet theater, where a special program will be arranged for them by the manager.

Tomorrow night at 6 p. m. will be Orpheum night. "Gee! but it's great to sell the Daily Sentinels," is the new slogan adopted by the Little Street Merchants.

EIGHT ARE DROWNED WHEN DAM LETS GO

Arizona Residents Lived Directly Beneath Big Structure.

Holbrook, Ariz., April 15.—Lyman reservoir, which impounds waters of the Little Colorado river twelve miles south of St. Johns, Apache county, broke at midnight last night drowning eight persons. A reservoir at Hunt, northwest of St. Johns, is in the path of the flood and if the dam there, which is threatened, gives way, Woodruff, 12 miles southeast of Holbrook, will be in danger.

The eight persons drowned had been living directly under the reservoir dam which collapsed as did a similar but smaller dam, ten years ago. No great damage has been done at St. Johns. Three of the eight persons drowned at Lyman dam were the children of Mr. and Mrs. Ellis Palmer and grandchildren of Mrs. Rachel Berry, one of the two women members of the Arizona state legislature. Lyman reservoir furnished water to irrigate thirty thousand acres.

JUDGE ROBY'S MOVE FUTILE

Chicago Court Refuses to Lower Appeal Bonds of Terre Haute Men.

ADVISES A RETURN TO JUDGE ANDERSON

Sheriff Shea Now Expected to Withdraw Appeal and Take His Sentence.

Chicago, April 15.—Attorneys for Donn M. Roberts and other men convicted at Indianapolis of the Terre Haute election fraud cases, failed today to obtain a reduction of the appeal bonds of their clients.

They argued a petition in the United States circuit court of appeals, but Judge C. C. Kohlstedt said he would not interfere in the case and advised them to make their application before Judge Anderson, who presided at the trial.

The application in the Chicago court was filed yesterday by Judge Frank S. Roby, of counsel for the Terre Haute defendants, and it is said to have caused surprise at Indianapolis, where a similar writ had been granted by Judge Anderson last Monday. District Attorney Daily hurried from Indianapolis to Chicago last night to oppose the granting of the writ here.

The application for a writ from the higher court, when the same thing had been granted by Judge Anderson, was regarded by federal officials and by other attorneys as an attempt to modify Judge Anderson's order with reference to the appeal bond. It was also regarded as an attempt to fly over the head of the court at Indianapolis by going to the higher tribunal to obtain a writ that Judge Anderson previously had granted.

SHEA MAY QUIT APPEAL.

Appointment of Brother to Succeed Him Was Condition.

Indianapolis, Ind., April 15.—Sheriff Dennis Shea, before he had learned today of the appointment of his brother, to succeed him as sheriff of Vigo county, said if the plan were successful he would withdraw from the appeal of his sentence of five years in Leavenworth, Kan., and a fine of \$1,000. He also stated that his resignation had been conditional upon the promise of the commissioners of Vigo county to choose John Shea to fill out the term as sheriff.

Dennis Shea has been in the Marion county jail here since he received his sentence at the hands of Judge Anderson last Monday.

DEATH'S TOLL 15; GROWING

Others Injured in Detroit Street Car Tragedy Will Succumb.

STATE OFFICIAL PROBES DISASTER

Student Motorman Blamed for Sending His Car in Front of Train.

Detroit, Mich., April 15.—The death list due to the collision of a Detroit, Toledo and Ironton freight train and a crowded street car here last night was increased to fifteen, eleven women and four men, today, when one of the injured women died in the hospital where more than a score of the wreck victims were taken. The recovery of at least three others of the injured was considered impossible.

Charles S. Cunningham, state railroad commissioner, has already begun an investigation in behalf of the state to determine who shall be officially declared responsible for the accident and at the same time the police and the county coroner are conducting separate inquiries.

J. C. Westover, student motorman, who was operating the car when it ran onto the railroad crossing, and Richard Vallade, the regular motorman, both of whom were taken into custody last night on manslaughter charges, were closely questioned again today by members of the prosecuting attorney's staff. Three of the dead were identified during the day as Elizabeth Gawarzynski, Valera Catus and Vernika Carucha, but at noon there were still the bodies of five whose names had not been learned.

STUDENT MOTORMAN BLAMED.

Detroit, Mich., April 15.—To the inexperienced of a student motorman is charged the death of fourteen persons, ten of them women, who were killed last night in a collision between a street car and a freight train on the tracks of the Detroit, Toledo and Ironton railroad in the Western End of this city.

According to the police the unexplained in activity of the student's instructor or also contributed to the disaster. Twenty-eight other persons were injured, four of them so seriously that their death is believed to be certain.

Early today only seven of the dead had been identified and it was said at the morgue that some of the bodies are so terribly mutilated that their identification will be well nigh impossible. How It Happened. With a heavy load of passengers, a street car, headed by Student Motorman J. C. Westover, halted as it reached the railway crossing, the conductor ran ahead, and seeing a string of freight cars pushed by a switch engine approaching the intersection, signalled the motorman to wait until it had passed. The novice misunderstood the signal and turned on the power. The car started down the slight incline leading to the railway tracks. When too late the motorman shut off the current and applied the brakes but the car slid along and stopped directly in the path of the oncoming train.

Crashes Into Car.

The leading freight car crashed into the street car, striking it squarely in the middle. The railroad tracks at the place where the accident occurred occupy a narrow street. As the car swept away from the crossing one end of it struck and demolished the front of the Delray station which stood on one corner and the other end tore out a part

DAMAGE SUIT DISMISSED.

Portland, Ind., April 15.—An unexpected move, resulting in the dismissal of the case, so far as the present trial is concerned, was taken in the suit brought by Ella Andrews against Jeff Klopfenstien, Preble saloonist, and the Illinois Surety company, asking damages in the sum of \$10,000 for the death of Wade Andrews, husband of the plaintiff, who was killed August 1, 1914, in an automobile accident while intoxicated. It was charged in the complaint that the sale of liquor to Andrews by Klopfenstien was the direct cause of his death. The case was venued from Wells county, having been originally instituted in Adams county. The trial was begun before a jury Monday noon and the evidence had been completed late Tuesday evening, leaving only the arguments of attorneys to bring the case to an end.

will you have the sound heart, steady nerves and good digestion of your younger days?

Many men and women reach the prime of life, burdened with stomach trouble, headaches, constipation, nervousness, heart flutter, etc., and frequently the cause is the drug, caffeine, in the coffee they drink.

You can quickly tell if coffee is injuring your health by stopping it ten days and using

INSTANT POSTUM

This delicious, pure food-drink contains no caffeine nor any other harmful ingredients. It is wholesome and invigorating, with a snappy flavour very like that of the Old Gov't Javahs.

And Instant Postum is so easy to make. Put a level teaspoonful in a cup and add hot water—that's all.

The convenience of Instant Postum is seen at a glance. Sold in 30c and 50c tins. Some prefer Postum Cereal—the original form, which must be well boiled, 15c and 25c packages.

Grocers sell both kinds, the flavour is equally delicious and the cost per cup is about the same.

The Giant Among Tires

Last year we sold 1,479,883 Goodyear pleasure car tires alone—about one for each car in use.

Yet Goodyear has some hundred rivals. How came this tire to dominate like that?

This is the reason: In the years before we sent into service millions of Fortified Tires. And those tires, by their records, sold the tires of last year. You know that's the only reason.

Supremacies

In at least five ways these tires excel all others. Each way is

important. Each is exclusive to Goodyear Fortified Tires. These ways combat rim-cut-

ting, blowouts, loose treads. They combat insecurity, punctures and skidding, as in no other tire that's built.

We spend millions on them, but they save our users more millions. They have made these the super-tires.

3 Price Cuts

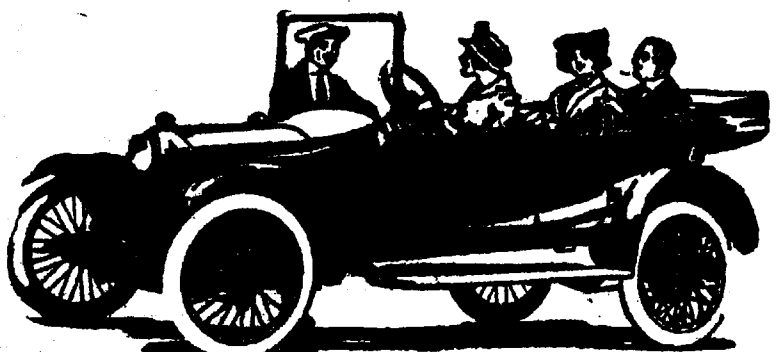

In two years we have made three price reductions, totaling 45 per cent. The last was on February 1st. Thus every saving, due to mammoth output or other reasons, is promptly passed on to our users.

Yet the tires grow better as prices come down. We spend \$100,000 yearly in seeking new ways to improve them.

You owe yourself a trial of such tires. Any dealer will supply you. (2298)

GERMANS AT WORK RESTORING LODZ

Captors Rapidly Bringing Order Out of Chaos in Polish City.

Lodz, Poland, April 1.—Correspondence of the Associated Press.—Day and night are almost equally busy in Lodz. The German officials who are now in occupation are straining every resource to restore to the city its former character as an industrial and manufacturing center. New railways are being built, roads and bridges are being constructed, factories are being prepared for new uses. The German military men declare that they have come to stay, and they are making preparations accordingly. On the side of defenses, there has been not only a tremendous strengthening of communications, but also a great building of trenches all through the country roundabout.

The population of Lodz has always been largely German and Polish, but now every Russian official has disappeared and the vast and useful army occupied the fine residences in the fashionable section of the city have crossed the frontier, leaving houses and furniture in the hands of their enemies.

Many of the German officers are quartered in the Grand Hotel. A German prefect of police has been installed, with a force of Polish and German citizens under him.

Although the food situation was for some time acute, this has now been remedied. The Germans have established cheap soup kitchens and bakeries for the poor, as well as the number of cheap restaurants. Persons desiring to pass from town to town in Poland must purchase a fresh passport for each journey, and for this a fee of about twenty-five cents is charged.

All stocks of metals, wool, cotton, and other goods usefully to the army have been commandeered and mostly sent back to Germany. Several of the factories have been opened and work is plentiful.

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "fruit laxative" cleanses stomach, liver and bowels.

A harmless cure for sick headache, biliousness, sour stomach, constipation, indigestion, coated tongue, sallowness—take "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels. A tablespoonful tonight means all constipation poison, waste matter, fermenting food and sour bile gently moved out of your system by morning without griping. Please don't think of

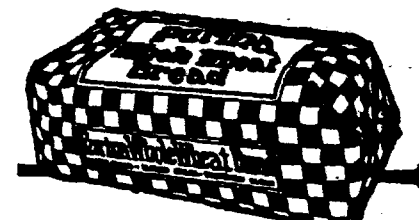

"California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative can't "not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Your only difficulty may be in getting the genuine, so ask your druggist for a 50 cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." This city has many counterfeit "fig syrups," so watch out—Adv.

Saerteig-Dannecker.

The wedding of Miss Clara C. Dannecker, daughter of Rev. and Mrs. H. P. Dannecker to Mr. Otto E. Saerteig, son of Mr. and Mrs. John C. G. Saerteig, took place on Wednesday evening in St. John's Lutheran church, of which the bride's father is the pastor.

The bride entered the church to the music of the bridal chorus from "Lohengrin," played by Prof. Korn, of Michigan City, with her father. In the bridal party, were the bride's sister, Miss Frieda Dannecker, who was honor maid and this city, Clara Korn, of Michigan City, and Margaret Dannecker, a cousin of the bride from Van Wert, O., who acted as bridesmaids. At the altar the bride met the groom and his best man, Mr. Herbert Saerteig. Two little girls and the ushers were other members of the bridal party. The children, Catherine Dannecker and Helen Bittler were ribbon bearers, and Messrs. George Bittler, of Indianapolis; Luther Dannecker, of Indiana; and Walter Vetter were ushers. Preceding the coming of the bride and her attendants a musical program of beautiful songs had been given by Miss Henrietta Schneider, a soprano, of Grand Rapids, Mich., with Prof. Wiggert, organist of the church accompanying her.

Miss Schneider sang "I Love You Truly," "Song of the Heart," "Calm is the Night," and "Beloved, It is Morn." The church was decorated with palms, ferns and pale pink carnations and calla lilies and formed a beautiful setting for the lovely coloring of the bridesmaids' gowns. The little ribbon bearers were in white with pink ribbon sashes and bows. The bridesmaids were dressed in gowns of pure white satin with high waist line and the bottom of the skirts cut in big scallops. Clusters of flowers and quaint bows of narrow black velvet ribbon were other suggestions of an up-to-date fashion and yet were reminiscent of the colonial period. Pale blue, Nile green, maize and pink were the colors of the different gowns. Each young woman wore a butterfly bow of black

velvet ribbon in her hair and carried a bouquet of pink carnations. The bride presented a sweet and very attractive appearance in her wedding gown with well fashioned into a cap for the hair and held in place with orange blossoms that were worn by her mother when she was married. The bride's gown was fashioned with a court train, and a drape that simulated an overcoat and hung on the sides in points that ended in pearl ornaments. The waist of the gown was entirely of princess lace and was cut in evening style. The bride wore no ornament but the groom's wedding gift, a brooch of flagstone gold and diamond setting. The bride's flowers were a shower bouquet of Miss Frieda Dannecker, the honor bridesmaid was

randomly dressed in an evening gown of gold color satin over which hung pale pink chiffon caught in place on the train and on one shoulder with pink flowers. In her hair Miss Dannecker wore a paradise feather ornament and her flowers were an arm bouquet of pink roses and sweetpeas. After the impressive wedding service as Prof. Korn played the Mendelssohn wedding march the bridal party left for the bride's home where an informal reception was held, followed by a dinner at 7 o'clock. The house was very pretty with many flowers, palms and festoons of green and the bride's table was decorated with a large and elaborately frosted wedding cake wreathed in smilax, white candles and bride roses. Later the bride and groom started on their wedding trip which takes them to both expositions in California and a trip to other points of the Pacific coast. They are to be gone about six weeks and will not be at home to their friends in their own residence at 1309 West Jefferson street, until the first of July. For traveling the bride is wearing a tailored suit of dark blue serge with blouse of blue crepe chiffon and small tailored black hat trimmed in blue. The bride is a young woman of much refinement of character. The groom is a bookkeeper for the Tri-State Loan and Trust company, and an admirable young man in every way. There were nearly one hundred guests at the wedding reception of whom those from out of town were: Rev. and Mrs. Theodore Dannecker, of Marysville, O.; Rev. and Mrs. B. F. Brandt and Mrs. F. Schulz and daughter, Miss Helen, of Oak Harbor, O.; Mr. and Mrs. H. L. Leitch and Miss Elizabeth Warner, of Delphos, O.; Mr. and Mrs. Max Dannecker and daughters, Misses Mildred and Marguerite, of Van Wert, O.; Prof. and Mrs. August Korn, of Michigan City; the Misses Emma and Henrietta Schneider, of Grand Rapids, Mich.; Mrs. Henry Meinert and daughter, Miss Augusta, of Toledo, O.; the Misses Alma and Frieda Busch, of Woodville, O.; Mr. George Bittler, of Indianapolis, and Mr. Luther Dannecker, from Columbus, O., where he attends school.

FOR PARENT-TEACHER CLUBS.

"Alice in Wonderland" Films at Colonial Theater Are a Benefit.

The Parent-Teacher clubs of the city are to receive a percentage of the receipts for tickets sold for the "Alice in Wonderland" film to be shown at the Colonial theater on Friday and Saturday. Manager Heiler of the Colonial has allowed a percentage on tickets and school children are permitted to sell tickets for five cents, while at the Colonial box office the price will be as usual, ten cents. The Parent-Teacher clubs are interested in more ways than in the percentage they get. This opportunity for children to see just about their best loved fairy tale at half price is worth as much to parents as a benefit to their children as it is to the clubs who like to put a few dollars into their treasury for various uses at the school.

As for the film itself, many grownups will go to see it because they remember the delicious humor and charm of Lewis Carroll's story.

Harmer School P. T. Club.

There will be a meeting of the Harmer school parent-teacher club tomorrow afternoon at 3:30 o'clock. Mrs. Mary Edson will give a talk about sewing for girls.

AT THE MAJESTIC.

"The Trojan Women" to be presented at the Majestic theater tonight is a play that has won remarkable tributes of praise from every standpoint in metropolitan cities and also in smaller cities in which it has been seen. The tragedy is old, written by Euripides.

Try this new wafer!

Everyone likes them

They fill a long-felt demand for a cracker that would be not only highly nutritious and palatable—but also slightly laxative.

A grain of wheat contains all the essentials necessary to sustain life in just the right proportions. Consequently, whole wheat is an ideal food—and a cracker made from whole wheat would fill the requirements as far as the nutritive and palatable qualities are concerned.

Bran is laxative—but bran alone is not palatable.

Just the right proportions of these two ingredients—whole wheat and bran—had to be worked out to a nicety to produce this new wafer with all its appeal to the taste.

Perfection Bran-Laxa Wafers

—are truly a 'Back-to-Nature' cracker!

They are the result of a scientific study of the blending of flours and of baking processes.

There's something about the taste of them that makes you know how good, and wholesome, and nutritious they are.

Keep them where the "kiddies can get at them! Eat them yourself whenever you feel hungry!

You're sure to like them!

AT THE JEFFERSON.

"THE SPANISH JADE."

Adaptation of Maurice Hewitt's Beautiful Romance Makes Popular Hit.

This adapting of this picturesque Spanish romance is the work of Louis Joseph Vance, the popular fiction writer, who has made a fine success in shaping the novel into one of the most brilliant photoplays seen by Jefferson audiences in quite some time. The work is sheer romance, full of the pulsing, thrilling life led by the quaint Spaniards, and it is so true to life that the figures on the screen seem fairly to move and breathe in actuality.

The star of the piece, Betty Bellaire, is an actress having a wide experience both on the legitimate and mimic stage. Tomorrow Hobart Bosworth appears on the Jefferson screen at the head of a brilliant cast presenting, "The Country Mouse."

For Everybody's Car

The Standard Oil Company's recommendation is one oil—Polarine—for every make and type of car. We could make a special oil for every type of motor. We have the facilities, the experts and the means.

But the study of every motor car on the market showed that the lubricating needs of all standard makes were identical.

Polarine

Polarine—the result—maintains the correct lubricating body at every motor speed and temperature.

Polarine is the best we can produce today. And no other organization commands more experts or has solved more lubricating problems.

Use Polarine. It has proved the cure for the motor troubles of thousands of good cars whose motors bore the blame.

PICTURES OF FUTILE RESCUE WORK ON ILL-FATED AMERICAN SUBMARINE F-4.

Top picture shows United States sailors lowering a diver in search of the submarine F-4, which went to the bottom with a score of men on March 25 in Honolulu bay. The middle picture shows old anchor on which naval tugs pulled for hours, only to have their crews learn their mistake when

the weight was finally brought to the surface. They believed the grappling hooks had located the submarine. The bottom picture shows G. B. Evans, the diver who went down 188 feet wearing only a helmet in search of the F-4. He is shown standing in the gangway of the U. S. S. Alert.

AMERICAN SLANG AND YANKEEISMS

Rapidly Finding Way Into Speech of Sedate Old English Folk.

London, March 30.—Correspondence of the Associated Press.—American slang and Yankeeisms are rapidly being incorporated into the speech of the people in England, owing to the vogue of American variety actors, ragtime songs and American books and plays. So one hears born and bred cockneys, who have never taken a four hours' trip from London, says the Globe, tell a person that he will "fix him up" with an much conviction as a Connecticut Yankee for the expression is a true Yankeeism and has never been current in the southern states. Educated Englishmen and women not only get off Americanisms unconsciously, but seriously.

Newspaperdom has borrowed largely of its slang from the states in "story,"

"write-up," "throw down," "cub," "live paper" and the like. American business men have popularized in England such phrases as "made good" and "back to the woods," and "quick lunch" restaurants have sprung up. Even on the underground railways the conductors say, "step lively" instead of the old "please hurry up."

Other bits of current slang attributable to American influence, ragtime and otherwise, are: "The glad eye," "I don't think," "some peach," "make a date," "freeze onto," "makes one tired," "sweetest thing you know," and kindred expressions.

The school for training officers, established by the British general staff, is located close to the general headquarters in France, and now has more than a hundred students, all picked from the ranks. The course occupies a month and combines theory with practice, although special emphasis is naturally placed on the practical side.

The school occupies a comfortable old mansion. A group of barns and sheds have been fitted up as dormitories. In the courtyard is a great sand bank, where the students construct model trenches, and apply the theory of the text-book to practice.

There are several class rooms equip-

ped with blackboards on which the instructors fight over again some of the early battles of the war. There are course in mathematics, in hygiene, and in other branches necessary for the equipment of a young officer. Not all the students prove to be of suitable material for commissioned rank. Part of the business of the school is to test the students as to their mental and moral capabilities for assuming rank as an officer in the field. Every week the student goes back to the trenches for twenty-four hours in company with an instructor, to observe and apply what he has been taught during the six days at the school.

HERE IS WHAT HAPPENED TO MR. LIEBIG'S TOURING CAR.

Two overland touring cars were wrecked, one of them being badly reduced, and several persons were slightly injured when the two autos came together at 1 o'clock Thursday morning at Lafayette and Williams street. One of the cars belongs to J. H. Liebig, 2226 Hanna street, who had with him Edward Kohlenberg, 2619 Weisser Park avenue, and the other was occupied by George Hilker, 301 Erie street, and Frank Hilker, 1510 Maumee avenue. With the Hilkers were two women that were hurried away following the

accident. Liebig says he recognized the women as Mrs. Peter Harber and a Miss Shondell. Liebig says he was on the proper side of the street and was dashed into by the Hilker car, which he declares made a short turn and caught his own car amidehips, rendering it a complete wreck. The occupants of both cars were hurled out and all were somewhat cut and bruised. Liebig, a member of the firm of Liebig brothers, proprietors of the Royal Dry Cleaning works, 322 West Jefferson street, says he will sue to recover damages for the damage to his car.

PLOTZ MAN OF HOUR IN MEDICAL CIRCLES

New York Bacteriologist Has Found Anti-Typhus Serum.

New York, April 15.—The man of the hour in New York medical circles today was Dr. Harry Plotz, the young bacteriologist of Mount Sinai hospital, who announced last night at a meeting of the New York Pathological society that he had discovered an anti-typhus vaccine. In view of the recent spread of this dread disease in Serbia where many American physicians are leading in the fight against the disease, the discovery was hailed.

been christened by Dr. Wm. H. Welch, head of the medical department of Johns Hopkins university, as "Bacillus Typhii exanthematicus," Dr. Plotz announced.

Dr. Plotz is 25 years old. He entered the pathological laboratory of Mount Sinai hospital as an interne to discover the origin of a fever called "Brill's disease" and isolating the germ which caused it, found that the bacillus was identical with that of Typhus fever.

NATION PAYS TRIBUTE TO LINCOLN'S MEMORY

Fiftieth Anniversary of Death of Martyr is Observed.

Washington, April 15.—Business of the United States government virtually was suspended today in recognition of the fiftieth anniversary of the death of Abraham Lincoln. In the national capital, as elsewhere, throughout the country and in foreign lands, wherever the American government is represented, the event was being observed in accordance with President Wilson's executive order. The president himself held a public session of the cabinet at 11 o'clock.

closed for the day and the supreme court of the United States, headed by a former confederate soldier, Chief Justice White, held no session. Flags on all government buildings throughout the United States were at half mast, a tribute to Lincoln's memory, as were they also on all forts and reservations, naval stations and warships and upon American embassies, legations and consulates throughout the world. Postoffices were closed part of the day. The owners and captains of all American merchant vessels had been requested to display the national emblem at half-mast.

SCHEDULE IS CHANGED.

On account of another meeting at Highland, C. Henry county agent, has found it necessary to change the date for the meeting to be held there, at which time C. G. Starr, hog production specialist from Purdue university, will be the principal speaker. Mr. Starr will be the principal speaker.

IN MEMORY OF LINCOLN.

Executive Offices Closed For the Day by Order of the President.

The engineers employed on the survey for the proposed Toledo, Fort Wayne and Chicago barge canal are enjoying a day's vacation as the result of President Wilson's order that all executive offices be closed in honor of the memory of Abraham Lincoln, who was assassinated fifty years ago April 14. The navy recruiting station is also closed as a result of the president's order.

AUTO SPEEDER IS ARRESTED.

AUBURN BARN MAKE LIVELY NIGHT BLAZE

Flames Finally Curbed Before Spread to Wider Endangered Area.

Auburn, Ind., April 15.—Fire practically destroyed the barn on the Dilgard and Graham lots on West Seventh street at about 1:30 Thursday morning. From the condition of affairs when the department started work it was apparent that the blaze originated in the Dilgard barn, and was communicated from there to the other.

For awhile it seemed that the residence of Charles Rumb and the barn on the lot, I. Farley property would also be lost, but valiant work on the part of the firemen avoided this.

Ray Dilgard, who conducts a furniture store, had used his barn for a garage and temporary store house. His Buick delivery truck, a number of mattresses and springs and the entire upstairs full of dining chairs was lost. Dr. Graham reports little loss except the structure. Some insurance was carried on both buildings.

Ezra Nicholas of Ashley, committed suicide by hanging Tuesday night. He has been mentally unbalanced for years, but was not considered harmful. The death came as a surprise to the members of the family, for he had never made any statements as to his intention to do such a rash act. The body was found in a barn on the Strayer property which he had selected as a suitable place.

News of the marriage of Charles Thatcher and Miss Marie Hebel leaked out Wednesday, after the ceremony had been performed almost a week. They drove to Coldwater, Mich., where they were married, and after a short stay, returned to the Hebel home in this city. The newly-weds will live in Fort Wayne, where Mr. Thatcher is in the real estate business.

TRIAL OF BIG SUIT GOES OVER TO JUNE

Pratt vs. Bash Fertilizer Co. Will Be Heard by Judge Simmons.

On motion for a continuance and to change the day set for trial of the suit of the Pratt Engineering and Machine company, of Atlanta, Ga., vs. the Bash Fertilizing and Chemical company, of Fort Wayne, the superior court has fixed June 21 as the new day for trial.

Rand, McNally & Co., Chicago publishers, have brought suit in the superior court against the Baade-Wynken company to collect \$220.32 on account.

Hon. Abe Simmons, of Bluffton, who has been appointed special judge to hear the case on change of venue from Judge Yapple, came to Fort Wayne Thursday and received and disposed of the motion for a continuance. The suit of the Pratt company is for \$30,000, alleged to be due for work done on the plant of the Bash Fertilizer company.

The defendant has filed a cross complaint for \$55,000 damages, claiming gross losses by failure of the Pratt company to fulfill its contract.

Notes of the Courts.
In the circuit court a third paragraph has been filed in the suit of John Teder vs. Lucinda Snyder and the Tri-State Loan and Trust company, to collect \$350 on a mechanic's lien.

The superior court, in the case of Stouder and Barnett vs. George A. The deceased was born in County Longford, Ireland, June 24, 1823, and came to America in 1838, locating with his parents in Ashkuba county, Ohio. In March, 1911, he came to Fort Wayne. He was a member of the St. Peter's Catholic church and of the Holy Name society of the same congregation.

He is survived by seven children: Frank Newton, of Butte, Montana; John, of Hamler, Ohio; Mrs. J. B. Larimore, of Napoleon, Ohio; Mrs. James LaFontaine, of Defiance, Ohio; Mrs. Jerry Kennedy, of St. Michael Kennedy, and J. M. Newton, of this city.

BOILER CONTRACT AWARDED TO BASS

Local Company's Bid Found Most Advantageous to the City.

After having had the bids for furnishing a 700-horsepower high pressure boiler to the city light and power works under consideration for two weeks, the board of works Thursday morning awarded the contract to the Bass Foundry & Machine works, of Fort Wayne. The price, including a Detroit stoker, was \$11,290 for a three-drum water tube sectional boiler. The type of stoker to be furnished is not, however, decided upon. The board and Mayor Hovey have made a most painstaking investigation of the merits of the bids, having been on several trips out of the city to view the operations of different types of boilers that were in competition in the bidding. The Bass boiler was decided to be the best for the city on several practical accounts relating to the duty it must perform. The new boiler, which is being necessary by the greatly increased business of the city electric light and power department, will be installed as soon as possible. It will not be connected with the big brick smokestack at the municipal plant, but a steel stack 5 1/2 feet in diameter and 110 feet high will be constructed for it. The brick stack is furnishing all the draft of which it is capable to the present steam engines and boilers. The nature of the city plant's business makes it imperative not to interrupt the service by shutting down the present equipment while the new boiler is being put in commission. It is figured that the steel stack will answer for a few years when another boiler will doubtless be needed and then a permanent brick stack will be erected of sufficient capacity for all future needs.

SEE A SOURCE OF REVENUE.

The park board has under consideration a plan by which it is believed a revenue of from \$1,500 to \$2,000 a year may be brought to that department by selling the bathing and refreshment privileges in Lakeside park to the highest bidder. Park Engineer Marriott Price has prepared plans and estimates for piping water from the St. Joe river to the lake and lagoons in the park and the cost of the undertaking is found to be feasible. This would keep the lake and lagoons well supplied with water at all times. Park Board Members D. N. Foster, Louis Fox and Prof. Louis Dorn, Park Board Secretary C. J. Steiss, Engineer Price and Prof. Schmidt and Kruse, of Concordia college, inspected that part of Anthony boulevard that runs between the college grounds and Concordia cemetery, Wednesday.

FRENCH ATTACKS FAIL.

Repeated Assaults of Allies Were Repulsed, Says Berlin.

Berlin, April 15.—(By Wireless to Sayville, N. Y.)—The German war office gave out a report on the progress of hostilities today which reads:

"Between the Meuse and the Moselle there was yesterday nothing more than isolated engagements.

"French attacks near Marcheville, in and around the forest of Lepretre, northeast of Manonville and south of Hartmannsweilerkopf resulted in failure.

"On the eastern front the situation remains unchanged."

A report on the situation in the Carpathians dated Monday, April 12, reads:

"The Russian attempt with the army that was before Przemyśl to force the invasion of Hungary has resulted in failure. The endeavors to get through the Lupkow and east Dukla passes were not successful and the Russian attacks at Sesteropko and Felsorobezur have definitely come to an end. The Russians, consequently are attack further to the eastward where also they were repulsed near Koziova with heavy losses.

"The attacking strength of the Russians has visibly lessened."

CALLS ATTACK FRUITLESS.

London Discounts Damage in New Zeppelin Raid on England.

London, April 15.—England experienced a second Zeppelin raid last night, when a German airship made an extensive flight over the northeastern coast in an abortive attempt to damage shipbuilding works along the river Tyne. With the exception of negligible damage to property and slight injury to two civilians, the attack was fruitless.

MAN AND WOMEN ARE HELD GUILTY; FINED

J. D. Kimberlin and Adeline Campbell, arrested several days ago by the police at a residence on South Hanna street, where they had been living as man and wife for several months, were tried in the city court Thursday on a charge of specific immorality and were found guilty by Special Judge Frank H. Kleckamp, a change of venue having been taken from Judge Kerr. Kimberlin was fined \$15 and costs and given a suspended sentence of thirty days. Attorney McAdams and Hartzell, who appeared for the pair, took an appeal to the circuit court. The defense was common law marriage, both defendants testifying that they entered into a marriage contract several years ago and had cohabited together as man and wife ever since. There has been talk that the federal authorities would take action against Kimberlin under the Mann white slave law, for having brought the woman to Indiana from another state. The arrest grew out of a turbulent row in the Hanna street house, when Kimberlin aroused his paramour's jealousy by bringing home with him the 16-year-old daughter of his employer. Both Kimberlin and the Campbell woman have been married and separated from their former mates.

At Foster's they have just received the last 150 Wren Houses that they will have this year.

VOLUNTEER FIREMEN TO HAVE BANQUET

Ft. Wayne Electric Works' Fire Fighters Will Celebrate.

The Voluntary Fire company of the Fort Wayne Electric works will be host this evening at a social function given in honor of the veterans of the company. Preceding a luncheon there will be some moving pictures, some speeches and some entertaining "stunts," not regularly on the program. E. A. Barnes, factory superintendent, and W. F. Melching, employment agent, will make short speeches, and Fred G. Dur-ye, chief of the line department, will read a paper, giving the history of the company, which will be twenty-five years old in a few months.

Elsewhere on this page is a picture of the firemen when the organization was only two or three years old. It contains portraits of all the original members and was taken at Robinson park August 8, 1890, on the occasion of the company's first excursion and outing.

Only three who were members of the organization in its infancy are still members of it. They are E. A. Barnes, Harry J. Evans, foreman of the carpenter department, and William Wurtles, whose portraits are shown. At the social this evening all the firemen of the department of the big works have been invited and most of them will attend. Provision has been made for serving luncheon to eighty people.

This fire company bears the distinction of being the best private fire fighting organization in the state. None has better equipment and it is said none in the state is better drilled nor more capable to perform the arduous and dangerous duties fire companies are called upon to perform at times. Their headquarters in the basement of the big office building on Broadway is equipped with every convenience and with tables and reading matter of all kinds. The "boys" anticipate one of the best times of their lives this evening.

BOOKS WILL BE CLOSED MONDAY.

Stock Sales for Co-Operative Store Nearly Completed.

At the meeting of the stockholders of the Union Co-operative Department Store Company of Indiana in the auditorium of the high school last night, which was attended by upwards of 400 people, it was announced that the campaign for stock sales was nearly finished and that the books would be closed at 10 o'clock Monday night. Booster meetings of the west and east division of the city will be held Sunday night at places to be selected today for the last places, but sales of stock will continue up to the hour named Monday night. The meeting last night was presided over by President J. B. Shaw, of the Fort Wayne Federation of Labor, who made a short speech, explaining the progress made towards establishing the store. E. S. Phillips, manager of the Indianapolis store, also made a speech, telling of the successes of the movement elsewhere. At Tinton, a coal mining center in southern Indiana, \$14,000 worth of stock was sold last week and \$4,000 cash was paid in. At Elkhart he said, \$12,000 of stock was subscribed in one day, at a mass meeting. After the meetings of the two divisions next Saturday it will be announced which party is the winner. A big banquet is to be given the winner, the losing side "paying the freight."

WILL HAVE STAG PARTY.

B. R. T. Members Preparing to Entertain Themselves.
Fort Wayne lodge, No. 136, Brotherhood of Railway Trainmen, which has not been very active in social events during the winter, except as guests of their auxiliary, contemplates two events this spring. One will be a stag party following a business meeting of the brotherhood at which there will be a class initiation and a committee consisting of W. E. Ferguson, chairman, N. S. Patton and J. B. LaTourrette is now at work on the details of the arrangements. Of course, this affair, being held in connection with a business meeting, will be for members only. The other event will be a banquet and dance for the members, their wives and members of their families, but the date has not been set. No. 136 bears the distinction of being the second lodge in the way of members in the United States, having nearly 400.

ATTENDED A COMMITTEE MEETING.

The general committee of the B. L. R. and B. L. F. and E. of the firemen of the Nickel Plate have just completed a meeting at Cleveland to transact some business connected with the brotherhood. Representatives from all the divisions were present. Fort Wayne was represented by Engineers W. Rogers and Oscar Seacore and Firemen J. F. Thompson and Ralph Scherer, who returned home last night.

of the Cleveland division of the Nickel Plate, with headquarters at Conneaut, is engaged in the commendable effort to break up trespassing on the company tracks at that city. He addressed a letter to the superintendent of the public schools calling attention to the fact that the school children are in the habit of walking on the tracks of the company in going to and from their schools until it has reached the point of a very grave danger.

ATTENDING Y. M. C. A. MEETING.

A. J. Cash, secretary of the Railroad Y. M. C. A., is attending the twenty-second annual conference of the employed officers of the Y. M. C. A., of Indiana, at Muncie this week. The conference opened last evening with a dinner at the association rooms, and will continue in session until and including Friday night.

TWO TRAINMEN INJURED.

Pennsylvania Brakeman Owen Cook sustained painful injuries to his back yesterday as he was in the act of getting off a train at Lima. He was compelled to quit the run and return home. Brakeman Thomas P. Robertson had a finger broken while at work at Crestline yesterday. He had to quit work and come home also.

FACE CUT AND BRUISED.

A big block used in engine repair work at the Pennsylvania erecting shop flew out of position this morning at 7:15 and struck L. R. Carpenter a terrific blow in the face. A four inch gash was cut in the forehead, the nose was cut and bruised and one of his cheeks was badly bruised. Dr. Budd Van-Swearingen attended the unfortunate man, who was then sent to his home.

MR. MILLER IMPROVING.

Word from the bedside of E. A. Miller, general superintendent of motive power of the Nickel Plate, with headquarters in Cleveland, is to the effect that there is a slight improvement in his condition. He is still very sick, however, and considerable anxiety is felt among his friends as to the result of the attack.

WARNING TO TRESPASSERS.

A bulletin on the boards at the Fort Wayne shops issued by Master Mechanic E. E. Griest, calls attention to the dangerous practice some of the men have of making a highway of the company's tracks in going to and from their work. It is a violation of the laws and of the company's rules and Mr. Griest wants the employees to quit it.

W. B. WOOD TO GO EAST.

General Manager W. B. Wood, of the Grand Rapids and Indiana road, will pass through the city this evening on his way to Pittsburgh. He will come down from the north in his private car attached to G. R. & I. train No. 8 and will go east on Pennsylvania train No. 8, his car going back to Grand Rapids empty.

DIVISION ENGINE BEING REPAIRED

"Isabel," the division officials' engine of the Pennsylvania, will be among the locomotives turned out of the Pennsylvania shops tomorrow. This engine has been in for general overhauling and when it comes out of the shop it will be equipped with an electric headlight, as well as all other modern appliances.

INJURED IN FALL.

Herman Lerch, a coremaker at the Bass foundry, had the misfortune to break the bones of the little finger of his right hand yesterday. He fell while crossing the alley at the rear of the foundry.

CONDUCTOR INJURED IN FALL.

While running along the tracks in Chicago yesterday, Pennsylvania Conductor A. L. Blauvelt fell on the stone ballast and severely sprained one of his wrists. The injury will keep him from work for some days.

INDUSTRIAL NOTES.

Louis Bender has taken employment at the factory of Rastetter & Son, E. R. Anglin, of the Pennsylvania car machine shop, is sick and off duty. Blacksmith Fred Lenz, of the Pennsylvania shops, is sick and off duty. Nickel Plate Fireman Earl Wolf has returned to work after a few days' lay off.

J. F. Sarazin, of the Pennsylvania blacksmith shop, is off duty on account of the death of a relative. Conductor George W. Clark, of the Nickel Plate, is taking a lay off to look after some private matters.

W. A. Barrett, salesman for the Bass Foundry and Machine works, has returned from a business trip to Pittsburgh and Wheeling, W. Va.

Machinist B. F. Telley, who had a wrist sprained three or four days ago, reported for duty at the Pennsylvania erecting shop this morning.

W. T. Holly, traveling passenger agent of the Southern Pacific, headquarters in Cincinnati, was in the city today.

FIRST VOLUNTEER FIRE COMPANY OF PORT WAYNE ELECTRIC WORKS AS IT APPEARED A QUARTER OF CENTURY AGO.

First row, seated on ground, reading left to right—Lincoln Johnson, Charles Smith and Levi Bixler. Second row, left to right—Percy Bosworth, E. A. Barnes, J. J. Wood and H. J. Evans. Standing in rear row, left to right—William Seibold, William Schaffer, August Kayser, F. Brinkley, William Reinking and Thomas Thomson.

Plate, is still sick and has not been able to work for a week. It is believed he is better.

Engineer H. W. Frase, of the Nickel Plate, is improving slowly from the illness which kept him from work for two months. He will not be able to work for some time.

The bowlers of the Wayne Knitting mills will give a dance and peddle party at the club house Friday night, to make money for paying for prizes to be given league teams.

The automobilists are soon to have an addition. Conductor George W. Clark, of the Nickel Plate, has contracted for an auto and is now taking a lay off to start the erection of a garage at his home, 448 West DeWald street.

Just as a fast freight train rushed by the scene, a box car that was being shifted in the Peru yards Tuesday, jumped the track and fell over on its side in the adjoining track. Had the accident happened a few seconds earlier, a disastrous wreck would have resulted.

During the illness of Baggage-master L. H. Leussenhop from the Wabash depot the duties of the office are being performed by E. H. Hickman, the night baggage-master. Mr. Leussenhop is slightly improved, but is still too ill to leave the house.

Gus Gruber, jr., left the St. John's hospital in Allegheny yesterday after being confined there several weeks with a serious illness. Mrs. Gruber is with her son and will remain until he is able to make the trip to Fort Wayne, when they will come here.

Secretary A. J. Cash, of the Y. M. C. A., has arranged to have Rev. C. E. Boyer speak and Miss Eldora Evans sing at the meeting of the Wabash shops Friday noon. Miss Evans has taken part in many of the noon day

meetings this spring. She is visiting relatives at Berne today.

Notices of election for the advisory board of the Pennsylvania Voluntary Relief association were received yesterday, stating that nominations would close April 30. Samuel M. Taylor, the train dispatcher, is the representative of the Western division on the board. He will probably be a candidate again.

IN THE CHURCHES PLYMOUTH CHURCH TO BE ENLARGED

Since the close of the Lyon tabernacle meeting many of the churches of the city have begun work on enlarging the churches and the next to fall in line is the Plymouth Congregational situated at Harrison and Jefferson streets. The rapid growth of the membership has brought before the congregation the problem of larger facilities for carrying on the work of the church. A meeting of the membership will be held next Wednesday evening to discuss the question of enlarged quarters.

Since the beginning of the pastorate of Rev. Arthur J. Folsom, the membership of the church has grown rapidly until today the auditorium cannot accommodate the congregation which assembles each Sunday morning. The adjoining lecture room has been employed to give

additional seating room, but even this has failed to meet the need.

It is not known whether the congregation will decide to remodel the present church building or if it will choose a site for a new building. Several of the active members of the church state that the expenditure of several thousand dollars would be sufficient to remodel the present building so as to provide an auditorium twice the size of the present one and at the same time bring into use large and fully equipped social rooms and Sunday school rooms which will meet the needs of a downtown church.

FIRST PRESBYTERIAN ELECTS.

OBREGON'S ARMY IS BEING SURROUNDED

Villa and Zapata Troops Are Rapidly Closing in on Celaya.

El Paso, Texas, April 15.—Official reports that the Obregon army at Celaya was being surrounded by Villa and Zapata troops were confirmed today by private advices from the south. It was stated that while Villa again was attacking Celaya from the north (Gen. Angeles had arrived from Monterey with 1,500 men and a large amount of artillery to assault the Carranza position from the east while Gen. Banderas with from 8,000 to 10,000 Zapata troops, three days ago had reached San Juan del Rio, just south of Queretaro, Obregon's base.

Together with this information came details of the first battle of Celaya last week, in which the Villa army was severely defeated. The Carranza commander allowed the enemy to enter the outlying districts of the town and showered the crowded streets with machine gun and shrapnel fire. The Villa troops fled, their losses in killed and wounded and captured being estimated at 4,000. One thousand of the Villa wounded were sent to Guadalajara. Conditions at Mexico City were reported quiet in advices reaching here today. The situation caused for want of food supplies, however, was still critical. A German citizen on the first of this month was probably fatally wounded by Zapata soldiers, who sought to rob him in a street of the capital.

WILL ASK POSTPONEMENT.

Government Not Ready to Meet Riggs National Bank Case.
Washington, April 15.—Postponement of the hearing to a later date will be asked by the defense tomorrow when the injunction proceedings of the Riggs National bank against Secretary McAdoo and Comptroller of the Currency Williams are taken up in the district supreme court.

Louis D. Brandeis, retained as special counsel to aid the department of justice in defending the officials, made this announcement today: "It is physically impossible to prepare the case by tomorrow. The government therefore will ask for a postponement to a later day."

Come to supper, Westminster Presbyterian church, Saturday evening, 5 to 8. 25c.

THRASHED WITH SWITCHES.

Posse Flays Man Who Fails to Provide for Family.
Somerset, Pa., April 15.—George Berndt, a well-to-do farmer of Lincoln township, was last night taken from the residence of his father near here by a party of men into a dense forest and thrashed with white thorn switches. The leader of the party, which numbered about forty, told Berndt that the punishment was administered because it was charged that he did not provide for his wife and five children. Berndt today visited a justice of the peace in an effort to secure warrants for the arrest of the men, many of whom were said to be leading residents of Lincoln township.

DEALINGS GROW BROADER.

New York, April 15.—Fifty-nine thousand dollars was offered today for a seat on the New York stock exchange, an advance over the last actual sale of \$3,000. A few weeks ago memberships were offered at \$36,000 and several transfers were made below that figure while the exchange was under enforced closure during the latter part of 1914.

Trading in stocks today was again in such large volume as to make the movement unusually impressive. Dealings were broader than at any time in recent years, embracing many hitherto dormant issues.

GIVEN A WAGE INCREASE.

Ten Per Cent. Advance for 12,000 Michigan Copper Miners.
Calumet, Mich., April 15.—Twelve thousand men employed by the Calumet and Hecla Mining company and subsidiary properties had their wages increased 10 per cent. by an announcement made today. The wage rate in effect prior to the outbreak of the European war is thereby restored.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body. It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples. Jad Salts is inexpensive, harmless and is made from the acid of grapes and is never combined with any other

POPE COMMENDS UNIVERSITY WORK

Roman Pontiff's Letter is a Feature of Day's Celebration.

Washington, April 15.—A letter from Pope Benedict XV was read at the exercises today commemorating the twenty-fifth anniversary of the Catholic University of America. The letter speaks in high terms of the work of the university and of the gift of \$500,000 from the Knights of Columbus for the endowment of scholarships. The letter is as follows:

"To our beloved sons, James Cardinal Gibbons, archbishop of Baltimore; John Cardinal Farley, archbishop of New York; William Cardinal O'Connell, archbishop of Boston; and to our other venerable brethren, the archbishops and bishops of the United States of America,

"BENEDICT XV, Pope.

"Beloved Sons and Venerable Brethren: Greeting and apostolic benediction: We have recently learned that preparations were being made at Washington for observing with due solemnity the twenty-fifth anniversary of the founding of the Catholic university, and that the celebration, graced by your presence and by that of distinguished members of the hierarchy, would be quite in keeping with the singularly happy character of the occasion. That you, beloved sons and venerable brethren, should above all rejoice at the prosperity of the university is obvious to every one who realizes that the beginnings and the gratifying progress of this seat of learning are owing especially to your wise and timely care. And yet this joy of yours is not so peculiar to you but that we also may in some wise share it. For we love, nay, we dearly cherish the American people, for as they are with the vigor of youth and second to none in efficiency of action and thought; and as we earnestly desire that an ever-widening path to the highest level of human achievement may open before them, so we cannot but feel the deepest pleasure at everything that furthers their progress.

"Still, in your tireless endeavors you aimed not merely at enriching the mind with learning; what you chiefly sought was to imbue it with that heavenly wisdom whose light cannot be put out and with which all good things shall come to your flocks. These proofs in deed of your pastoral solicitude must appeal to every fair-minded observer as worthy of the highest commendation and deserving of the appreciation and support of your fellow citizens, especially of your Catholic people and in particular of your clergy.

"In this connection we will not withhold our praise from the Knights of Columbus, who, as you lately informed us, by their splendid contribution to the funds of the university have carried into effect their wisely conceived design of extending to young men less favored by fortune the advantages of a solid and at the same time a Christian education. This noble example of beneficence, which all good men approve, we hold up for imitation and generous emulation to all who are blessed with means; and we heartily wish that your yourselves, beloved sons and venerable brethren, will advance the cause of the university by sending to it students whose superior qualities of mind and disposition give promise of the best results. In addition to other advantages which are thence to be expected, the clergy of the church in America will receive one and the same culture and training; and this we speak to those who know by experience—means without doubt a clergy whose piety will bear richer fruit because of their more active and more harmonious co-operation for a common purpose.

"This blessing we implore with playful instance from God; and as an earnest of heavenly favors and a token of our good will, we most lovingly in the Lord bestow upon you all, beloved sons and venerable brethren, upon the rector, the professors and the students of the university; and upon the Knights of Columbus as well, our apostolic benediction.

"Given at St. Peter's, Rome, this 15th day of March, 1915, in the first year of our pontificate.

AMERICAN LEAGUE SCORES.

WASHINGTON, 7: NEW YORK, 0. Washington, April 15.—President Wilson, several members of his cabinet and a huge crowd saw Washington defeat New York by a score of 7 to 0 in the opening game of the baseball season here. The president began the game by throwing out the first ball to Empire Billy Evans. With Secretaries Bryan, Lane, Daniels and Garrison he remained throughout the game and warmly applauded the best plays. A baseball hit and ball, inscribed with the name of Francis Sayre, the baby grandson of President Wilson, were presented to the president during the game by Manager Griffith of the Washington team. Walter Johnson allowed New York but two hits. Score: R.H.E. New York.....0 0 0 0 0 0 0 0 2 3 Washington.....1 0 0 1 0 1 1 7 11 Batteries—Warhop and Sweeney; Johnson and Almshoff.

CLEVELAND, 5: DETROIT, 1. Detroit, April 15.—Detroit fielded miserably, was unable to hit Mitchell opportunely and Cleveland won the opening game of the season 5 to 1. Ty Cobb ingloriously muffed Chapman's high fly in the first inning, thus making an error on his first fielding chance of the year. The score: R.H.E. Cleveland.....1 0 0 0 1 3 0 0 5 7 Detroit.....0 0 0 1 0 0 0 0 1 7 Batteries—Mitchell and O'Neill; Coveleskie, Boland and Stange and Baker.

CHICAGO, 7: ST. LOUIS, 6. St. Louis, April 15.—Chicago and St. Louis opened the American league season here by a thirteen-inning game which the visitors won by 7 to 6. In the last inning Fournier's triple brought in Brief and Schalk, who had singled. On the following out Fournier came in with the winning run of the game. In the same inning St. Louis also took on new life and scored twice but fell a run short of tying the score again. Score: R.H.E. Chicago.....1 0 0 0 0 2 0 0 1 0 2 7 St. Louis.....0 2 0 0 0 0 1 2 6 6 Batteries—Scott, Jasper, Faber, Cicotte and Schalk; Weisman, Perryman and Seaver and Agnew.

PHILADELPHIA, 2: BOSTON, 0. Philadelphia, April 15.—Herb Pennock was in such wonderful form in the opening championship game between Philadelphia and Boston here that the latter team was not only shut out by 2 to 0 but it was not until two men were out in the ninth inning that the visitors made their lone hit of the contest. Then Hooper bounced a single over Pennock's head. Lajoie made a desperate try for the ball, but he could not hold it with one hand, and Pennock lost his chance for a no-hit mark. Frank Baker, who announced his retirement several weeks ago, witnessed the game. His place at third base was filled by Eddie Murphy, who did excellent work. The weather was cool and the stands were little more than half filled. The score: R.H.E. Boston.....0 0 0 0 0 0 0 0 0 1 0 Philadelphia.....0 0 0 0 0 2 0 0 2 7 Batteries—Shore and Cady; Pennock and Schang.

MEETING OF SEMI-PRO LEAGUE

Further arrangements for the opening dates of the Ohio-Indiana semi-pro trolley league were made at the meeting held Wednesday evening in the Anthony hotel, with President Matt C. Cleary in the chair. Representatives from half a dozen surrounding towns were present.

The league will be one of the biggest semi-pro organizations ever attempted in the state, and it is requiring an unbelievable amount of money and work to get it on its feet. Many of the oldest heads in local baseball are interested and indications point to a big success.

JESS WILLARD'S LIFE STORY. COWBOY IS ARRESTED AND ESCAPES.

CHAPTER IV. When the word came over the wire that Jess Willard had knocked out Jack Johnson the people in Oklahoma went wild about it. By cable somebody in authority offered Jess the job of state cattle inspector; others asked him to referee an auto race—and all the time he was a fugitive from justice from the state.

At that, the big fellow wanted to toss his theatrical contracts at nearly \$1,000 an appearance and hit out for Oklahoma to show the home boys what he had made of himself. He probably thought more of the adulation he would receive than the enormous money he could command as a vaudeville attraction. But wiser hands restrained him.

Back in 1911 when Jess was disqualified after fouling his opponent in his first fight he would not give up the fight game. To his friends he declared that he was the man who would lick Jack Johnson. At that time Johnson's defeat of Jeffries was still fresh in the minds of all men, and giants were being dragged from between plow handles and from blacksmith shops and made into "white hopes" overnight.

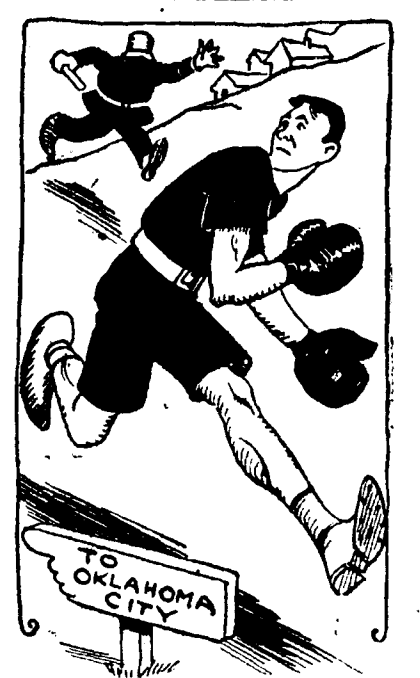

Jess got another match two months after his unsuccessful first affair and sent Ed Burke, a big fellow from San Francisco, into dreamland in the third round. Three weeks later he met Flink, his first opponent, and knocked him out in three rounds.

They put Jess up against Al Mandino, Joe Cavanaugh, Bill Shiller, Frank Lyon and Mike Conuskey before the year was ended. The first three each took it on the chin and collapsed in short order. The second two stayed the ten rounds but were licked.

Jess, however, didn't get much for any of these fights and things didn't look well for the Willard family. He was even plucked for vagrancy, so deplete were his finances.

To make matters worse the authorities

got after him for participating in several secret battles and he was arrested, charged with prize fighting. He was placed under \$100 bonds. Jess jumped the bond and decided that Oklahoma was no healthy place for him, nohow. He beat

"Jess Beat the Police to the Border."

half a dozen constables and Oklahoma City detectives to the border and never stopped until he reached St. Louis.

Jess hasn't been back yet, but when he goes back the fellow that's mean enough to serve that warrant is going to be a mighty unpopular guy. (Continued tomorrow).

(Grand Rapids News).

What shall we name the Grand Rapids Central league ball team?

What it may be called at various times during the coming season is of secondary importance.

A new nickname, however, is a necessity.

Grand Rapids has labored along under the Black Sox title for years and many times the name has meant nothing more than a name.

There should be some live moniker attached to the Grand Rapids outfit this season.

Owners Essick and Noblett are now considering the proposition of inviting the fans into a general name contest with a view to securing something new, something live, something representative.

Fort Wayne has just passed through a "naming bee" and the terms of Soldiers and Railroaders have been relegated to a dead past. The Wayne bunch will now sail as the Cubs.

A contest with a season ticket as the prize has just been concluded. The reason for the name Cubs swung the balance in its favor. The lucky man said that Fort Wayne should be called the Cubs because of Bode Meyer's well established ability to take a bunch of Cubs and train them into regular bears before a season is half over.

SHIFTS AT DAYTON.

Compton is Moving Things Around in His Outfield.

Dayton, O., April 15.—The shift which puts Compton in the outfield and sends Hobbs to second is working fine and it looks as though Manager Compton has hit upon a novel scheme. Ward is proving himself a second Tris Speaker, the way he makes them in-out in the garden. He is fast and can cover acres of ground. Ward is an excellent judge of a fly ball, and he is probably better at this than he is on the grounders.

NEW YORK, 16: BROOKLYN, 3.

New York, April 15.—The New York Nationals opened their championship season here with an easy victory over Brooklyn, the former champions winning by a score of 16 to 3. McGraw's team got off to an early lead by hammering Pfeffer for seven runs in the first and second innings. Schmutz stopped New York for a few innings but in the sixth inning the home team piled up five more runs on four doubles, a single, a steal and an error. Brown, who finished, was even less effective. Doyle, up five times, hit two doubles and three singles and scored four runs. Score: R.H.E. Brooklyn.....0 0 0 0 0 0 0 0 3 6 3 New York.....4 3 0 0 0 5 3 1 15 1 Batteries—Pfeffer, Schmutz, Brown and McCarty; Tesreau and Myers and Smith.

PHILADELPHIA, 5: BOSTON, 0.

Boston, April 15.—The Braves received a setback from Philadelphia at the start of their quest for a second pennant. With Alexander pitching remarkably well for the opening game of the season, the world's champions were shut out 5 to 0. Spectacular fielding by Whitted and Bancroft, recent additions to the visitors' ranks, aided materially in their success. Score: R.H.E. Philadelphia.....1 0 0 0 0 0 1 0 5 0 Boston.....0 0 0 0 0 0 0 0 0 0 0 Batteries—Alexander and Kilfiter; Rudolph and Gowdy.

PITTSBURG, 9: CINCINNATI, 2.

Cincinnati, April 15.—Pittsburg made a runaway event of the opener, winning from the Cincinnati team 9 to 2 before a crowd that tested the capacity of Redland field. Hinchman, Pittsburg's right fielder, was the star of the contest. He obtained three hits, one a triple, scored two runs and his hitting was responsible for several other Pittsburg tallies. Score: R.H.E. Pittsburg.....0 1 0 3 0 0 1 4 9 10 Cincinnati.....0 0 0 0 1 0 0 0 2 3 Batteries—McQuillan and Gibson; Ames, Schneider and Doolin.

CHICAGO, 7: ST. LOUIS, 2.

Chicago, April 15.—Speedy base running and St. Louis' numerous errors gave Chicago so many runs that Vaughn's pitching task was easy, and the opening game of the season went to the locals 7 to 2. Not until the eighth inning did Vaughn attract a visitor to reach third base. He struck out eight. Score: R.H.E. HAL STEWART GIVES YOUNG OTTO LACING

Fort Wayne Battler Almost Puts Out Akron Pug at Lima.

Lima, O., April 15.—The gong tolling the end of the tenth round and the fight, spared Young Otto, the husky battler from Akron, having a knockout chalked against him in his contest with Hal Stewart, class 133-pounder of Fort Wayne, in their affair here last night. It had been Stewart's fight practically the whole way and near the end of the tenth and final installment of the argument the Fort Wayne lad gave Otto a terrific clout over the heart with his right. The Akron boy withered under the blow and produced just enough steam to hang on until the bell saved him.

In the eighth round it looked as though Stewart was going to put his rugged opponent away, for Otto came in for a lacing that had him pretty well routed for dreamland. He was groggy and reeling under Stewart's fierce onslaught, but the bell proved his salvation. The crowd was keyed to a high pitch in this round and expected a knockout.

Stewart showed strong and capable the whole distance and Otto, though high in reputation as a ready and rugged battler, was distinctly outclassed. The first, second, third, seventh, eighth, ninth and tenth rounds were Stewart's by good odds. In the fourth Otto got in with a clean right on Stewart's jaw and jarred him. With his handy left Stewart jab at Otto's face in a succession of straight jabs that for the first four rounds stood the Akron boy away, before he could work out a defense. After that Stewart mauled him vigorously at lightning. Stewart did not manifest that a recent operation on his nose handicapped him any.

Frankie Mason, the Fort Wayne paperweight, had no trouble in disposing of Kid Crawford in the semi-windup. He had the best of every round, dropping Crawford once in the fourth and three times in the fifth, where Crawford was effectually stopped.

More than 500 members of Fort Wayne chapter No. 19, Royal Arch Masons and their ladies attended a theater party at the New Palace Wednesday night.

The men were surrounded by the cordons in a dense woods south of Bluffton. They had been discovered in a poultry house belonging to William Bennett and escaped in their wagon, but were at length run to ground. DuBois and Comerford were arrested by Sheriff Gladieux and his deputies December 17 after they had been trailed all night by Lemon Blume and Virgil McNutt, two farmer boys who had been on the lookout for them. The thieves had more than 100 chickens in their wagon, having raided negroes at half a dozen night. They were convicted and fined \$5 and costs and given seventy days in jail. This motion was made in an appeal from an order of Justice Page directing that Thaw be sent back to Matteson asylum.

SENTENCES TO JAIL ARE NOT SUSPENDED

Judge Kerr Alters Policy With Men and Women Who Sin.

That Judge Kerr in the city court has switched from his policy of suspending jail sentences in the cases of men and women convicted of immoral relations was made clear Thursday morning when he declined to suspend terms imposed in three instances. John Johnson and Anna Fisher, who were caught in a raid on a Clinton street rooming house several days ago, pleaded guilty—the woman to prostitution and the man to association—and were fined \$15 and costs and given fifteen days. The case was appealed to the circuit court and a bond filed by their attorney, George Stoner and Helen Hutter, caught in the same raid, also were held convicted. The girl was given into custody of Police Matron Winch and Stone was fined \$15 and costs and given fifteen days.

Hotel Proprietor Arrested.
J. D. Johnson, proprietor of a hotel on West Main street, was arrested on a charge of keeping a house of ill-fame, and Lulu Harrison and John Doe, arrested by Officers Bert Smith, Walter Kavanaugh and Bert Brown in a raid on the place Wednesday night, were charged, respectively, with prostitution and association. The three cases were continued until Friday morning. Johnson's bond was fixed at \$500 and Doe's and the woman's at \$200 each. The man furnished cash bail, but the girl was unable to give bond.

Porter Pays \$75 Fine.
James Porter, charged with violating the speed regulations, was fined \$75 and costs on conviction, after pleading not guilty, and the fine was paid. It was shown that he was driving his car at an unlawful speed Tuesday night when he had a wreck by collision with a tree at Washington and Hanna streets in trying to avoid a hack that was coming from the opposite direction. Mrs. Frank J. Belchin, wife of a saloonkeeper at Glasgow avenue and Washington streets, was so seriously hurt that she may be permanently crippled in one of her legs, and a woman said to be a Mrs. Thorp, of Indianapolis, was badly cut and bruised about the face. Ed Stumpf, proprietor of the Four-Mile house, on the Lincoln highway east of Fort Wayne, was injured about the face slightly. The three were passengers in Porter's car, having asked him to bring them to the city from Stumpf's place.

Other City Court Cases.
Charles Hollingsworth and W. G. Thomas, of Howard county, Ind., were fined \$10 and costs for driving automobiles without tags. They were arrested Wednesday by Traffic Officer Adkins as they were passing through the city with new cars they had just purchased at the factory in Auburn. It is understood the factory people paid the fines.

Frank Bessie, a well-dressed and rather genteel-looking white man, and Austin Dixon, Frank Williams, Tom Taylor, William Moore and William Hughes, negroes, were caught in a raid on the hobo camp along the Wabash track near the St. Mary's river, Wednesday afternoon. All were continued for periods of from one to five days for investigation.

Jake Rudisill, who resides north of the city, was charged with drunkenness, and turned loose to return home.

John Bearslay, drunk, was in a shaky condition from excesses and on the verge of the "limmies." He was continued until the 20th to get well.

POULTRY THIEVES IN AGAIN.
Clyde E. DuBois and Grant Comerford, professional poultry thieves of this city, are in jail at Bluffton for extensive operations in Wells county. They were caught after a pursuit of two hours by Sheriff Johnson and Deputy Albright, of Wells county, who were aided by a large posse of armed farmers. The men were surrounded by the cordons in a dense woods south of Bluffton. They had been discovered in a poultry house belonging to William Bennett and escaped in their wagon, but were at length run to ground. DuBois and Comerford were arrested by Sheriff Gladieux and his deputies December 17 after they had been trailed all night by Lemon Blume and Virgil McNutt, two farmer boys who had been on the lookout for them. The thieves had more than 100 chickens in their wagon, having raided negroes at half a dozen night. They were convicted and fined \$5 and costs and given seventy days in jail. They have been out but a short time.

16,000 CARPENTERS TO STRIKE TONIGHT

Chicago, April 15.—Strike of 16,000 union carpenters was to go into effect at the close of work today as a result of the failure of union leaders to agree on a wage scale with the Employers' association. DISTRESSING RASH COVERED FACE

Head and Ears of Child. Kept Getting Worse. Very Irritating. Face Quite Disfigured. Used Cuticura Soap and Cuticura Ointment. Trouble Entirely Healed.

Clay Center, Neb.—"I want to tell what Cuticura Soap and Ointment has done for my little girl. Her face, head and ears were just completely covered with a sore eruption. It made its appearance in the form of a rash and kept getting worse and spread until her face and ears were almost a solid mass, very irritating and causing great itching and distress. It made her restless at night and her face was quite disfigured.

"I tried different remedies suggested but nothing we did brought any relief. Finally I decided to give Cuticura Soap and Ointment a trial. I washed her face with Cuticura Soap, dried it lightly and applied Cuticura Ointment. I could notice an improvement with the first application and in two weeks' time the trouble was entirely healed."

PLAIN DUTY, SAYS MILLIONAIRE HOBBO

Why He Forsook Luxuries for Life of the Common Tramp.

(By Mark Larkin.)

San Francisco, April 13.—The richest hobo in the world claims to be a pauper. He is Dr. James Eads How, of St. Louis, the "Millionaire Hobo."

Strange, indeed, is the life of this man. He has attended three colleges—Harvard, Oxford and the College of Physicians and Surgeons of St. Louis—

James Eads How

and he is an heir to one of the biggest fortunes in the middle west. Yet he has renounced all this wealth and the prestige it would bring him to accept the most lowly lot in the world—the lot of the hobo.

It is his ambition to organize, educate and protect the labor of the world; especially the migratory labor—the hobo element.

Captain James E. Eads, inventor, and famed as the builder of the Eads bridge at St. Louis, was Dr. How's grandfather. Therefore, Dr. How is one of the heirs to the vast Eads fortune.

But Dr. How lays no claims to this fortune, for the reason that he feels that he has no right to wealth that he had no hand in making. It is Dr. How's theory that his share of that money is unearned increment, and therefore belongs to the commonwealth.

Dr. How doesn't even know how much wealth he will eventually inherit, and what he will do with the money is a problem that he never has considered.

"It is a religious work with me—this labor work," Dr. How stated. "I felt that the call was divine. Here was a great mass of people surging, swaying, moiling, seeking a purpose, but with no one to guide them. I felt the call to step in and lead them. It was not a matter of sacrifice on my part, just plain duty. And now I deem it my duty to instruct them that through labor the world's business can be done in a co-operative way."

"Only about 25 per cent. of the migratory workers are enlisted in organizations of any nature, leaving the great surplus to be educated," said Dr. How. "This will give you some idea of the magnitude of the work before us. There are about 8,000,000 unemployed in the United States alone."

For fifteen years Dr. How has worked to better the condition of the hobo. During that time he has been one of them, eating their bread and drinking their wine, always teaching his doctrine of organization and better conditions.

Through the efforts of this great pioneer the vast rabble of unemployed and migratory workers is being organized. The progress is slow and tedious, but the many hobo conventions of recent years portend the coming of the time when the great army of seasonal and migratory workers will be moulded into one tremendous unit.

In carrying his message to the hobos Dr. How has ridden the rods and served his apprenticeship as a brake-beam tourist. In fact, there is nothing in the lot of the men he is trying to

educate that was too lowly for the "Millionaire Hobo"—this man who has renounced riches to better the conditions of the uncouth workers who ramble from job to job.

MUCH INTEREST IN INSTITUTE.

Portland Aroused Over Its Coming Civic Revivals.

Portland, Ind., April 14.—Much interest has been aroused in Portland in the three-day community institute, which the Commercial association will hold under the auspices of the Indiana university extension division. The institute will be held April 14, 15 and 16, and will present a program of varied character.

Farm conditions and requisites, social progress, home advancement, general culture lectures, music, drama, domestic science, political economy and eugenics are to be discussed by lecturers of prominence. Among those who will appear are Dr. J. N. Hurty, Dr. Henry S. Curtis, president of the National Play-ground association; J. A. Brown, of the board of state charities; Miss Viola Newsum, president of the State Federation of Women's clubs; Alma L. Garvin, instructor in home economics at Purdue; Herbert D. Hemenway, consulting landscape planter; Mrs. Nellie Peck Saunders, organizer of the National Drama league, and a number of others.

Persons who have aided in developing local interest in the institute say no Chautauqua or enterprist of a similar nature has ever developed a similar public interest.

RYAN RELIEVED OF DUTY.

U. S. Recruiting Officer to Be Succeeded by Lieut. Edward Coppock.

Washington, April 14.—The war department has issued an order relieving Captain Thomas F. Ryan, United States army, as recruiting officer of the army at Indianapolis. It has detailed Edward R. Coppock, United States army, Second cavalry, to succeed him.

Captain Ryan was recently cited for contempt in the court of Judge Moses Lairy, of Logansport, because he wrote a letter to a Logansport paper taking exception to the action of the court in giving a prisoner his choice of going to jail or enlisting in the army or navy.

Lieutenant Coppock was born and reared in Indiana and was graduated from the infantry and cavalry school in 1904. He entered the service as a private in troop E, Eighth cavalry, nineteen years ago and was commissioned a second lieutenant in 1901. He was assigned to succeed Captain Ryan as the recruiting officer at Indianapolis at his own request, according to the statement made today by the war department.

TAKING CARE OF THE CHILDREN.

No parent would consciously be careless of the children. Joe A. Rozmarin, Clarkson, Neb., uses Foley's Honey and Tar for his two children for croup, coughs and colds. He says: "We are never without Foley's Honey and Tar in the house." A distressing cough, sleepless nights, and raw, inflamed throat lead to a run-down condition in which the child is not able to resist contagious or infectious diseases. Foley's Honey and Tar is truly healing and prompt in action. It relieves coughs, colds, croup and whooping cough. Dreier Drug Co.—Adv.

SUCH A RELIEF.

The maid-of-all-work is as black as a pot when there comes a peal at the front door bell. Mistress—Don't you go, Jane, but just peep and see who it is. Jane (after peeping)—Oh, it's all right, mum; it's only the master. I thought it was a gentleman.

Why Do They Call It a Honeymoon?

The word "Honeymoon" which is commonly used to describe the first few weeks after marriage, has always meant the first month or month after marriage, but does not have any reference to the month or month excepting as that describes a certain period of time.

The word originated in an old custom, quite common among newly married couples among the ancient Teutons of drinking a kind of wine made from honey during the first thirty days after being married.

In these days newly married couples generally take a trip away from home for a short or longer period after their wedding day and this is called the honeymoon whether it is but a few days or three months or more. The custom of drinking wine made from honey has been abandoned so that the word is now used in an entirely different sense than formerly.

Why Does a Bee Have a Sting?

The bee's sting is given him as a weapon of defense. Primarily it is for the sole purpose of enabling him to help defend the hive from his enemies. Sometimes when he is attacked away from the hive he uses his sting to defend himself. When he does so, he injects a little quantity of poison through the sting and that is what causes the inflammation.

THE MARKETS 20 CENTS IS ADDED TO PRICE ON FLOUR

With wheat adding another cent and reaching the \$1.52 mark Thursday, one local dealer advanced his price on flour 20c a barrel, again reaching the price which was asked when wheat hit the record price of the season. The wheat market has been very strong for the past week and prices have been going up slowly but steadily and there seems to be no stopping point in sight.

The city scalemaster reports that the corn market on Barr street Thursday morning was the steadiest it has been for over a year. All thirteen loads which tipped the city scales brought 75c a bushel. Two loads of oats were weighed, one bringing 57c and the other 58c a bushel. The hay prices remain at \$14.00@15.50.

The produce market remains steady, eggs at 19c a dozen. The live stock market quotations remain unchanged. The average price paid for hogs is \$6.75 while extra firsts bring \$6.85.

THE DAY ON WALL STREET. New York, April 15.—Early dealings in the stock market today pointed to another session of extreme activity. Initial prices suggested further profit taking by reason of the irregularity of the movement. Bethlehem Steel opened with a lot of 500 shares at 135 to 136, a minimum overnight rise of three points. Gains of one to five points were registered by various industrial and equipment issues, while some of the more important railway shares like Union Pacific, New York Central, Atchafson and St. Paul were fractionally lower.

Trading lost none of its feverish activity during the morning session, the overture of the first two hours approximating yesterday's enormous total. Business was on the broadest scale thus far witnessed, quoted in many issues, not heretofore quoted. There was a confusion of gains and losses and leading stocks continued to evince further irregularity. Reading's course being especially erratic. London and other foreign countries were sellers here to a considerable extent and local interests, especially the trading element, renewed their operations on the short side. Bonds were irregular.

Inevitable profit taking took the edge off the late rise, leaders declining one to two points from their best. The closing was strong. Dealings in stocks today surpassed all recent records both in respect to activity and number of issues traded in. Realizing sales caused marked recessions at the end.

ONE MORE BRITISH STEAMER SENT DOWN

Ptarmigan is Torpedoed and Sunk by Kaiser's Submarines--Grandson of Gladstone is Killed.

Today's War News Given in Summary.

Four attacks by the French are mentioned in the Berlin war office statement today and all are said to have resulted in failure. The Paris statement, however, asserts that in the Ailly wood a section of ground 400 yards long and 100 yards deep was won, and that in Alsace an advance of nearly one mile was made. The British steamer Ptarmigan has been sunk by a German submarine in the North sea. Eleven men of her crew of twenty-two were saved. Four steam trawlers flying the flag of Holland have been seized by German warships and taken into Cuxhaven. It was announced in the house of commons today that the British casualties from the beginning of the war to April 11 amounted to 139,347 men. The German war office today declared that the Russian attempt to invade Hungary had failed. London asserted that a new Zeppelin raid made on the northeast coast of England by German aviators had done only negligible damage.

London, April 15.—The British steamship Ptarmigan has been torpedoed and sunk by a German submarine near the North Hinder light ship in the North sea. Eleven sailors of the Ptarmigan's crew of twenty-two men were saved. The Ptarmigan had a tonnage of 475 net and was built in 1910. The vessel was 218 feet long and sixteen feet deep. She was owned by the General Steam Navigation company. Zeppelin Covers Long Trip. The skippers of the British trawlers who sighted the Zeppelin aircraft which last night raided the northeast coast of England, describe her as the Z-9, one of the very latest type of German airships. The trawlers sighted the craft 100 miles from land. They believe she came from Heligoland. If she returned to that island the calculation is made that she must have covered on her trip something like 800 miles. The trawlers came at full speed for port immediately after they recognized the Zeppelin with the object of giving warning, but of course they were easily outdistanced by the airship. Gladstone's Grandson Killed.

William L. Gladstone, grandson of the great liberal statesman, has been killed in action in France. Particulars of his death are lacking. Mr. Gladstone was 20 years old. He was a liberal member of the house of commons. In 1910 and 1911 he served as an attaché to the British embassy in Washington. Demands Speed on Munitions. An important committee under the chairmanship of David Lloyd George, the chancellor of the exchequer, to organize and speed up the supply of munitions of war was completed today. Premier Asquith announced the composition of the committee to the house of commons. He explained that its functions were "to insure the promptest and most efficient application of all the available productive resources of the country for the manufacture and supply of war munitions for the army and the navy and with authority to take all necessary steps for that purpose." The British war office has appointed a departmental committee to assist in

STATE SUES FOR A RECEIVER FOR BANK

New Twist to the Tangled Affairs of Financial Concern at Merom.

Indianapolis, Ind., April 15.—Suit has been brought in this, Sullivan circuit court, against the Merom state bank, for a receiver, according to information received today. The suit was brought on the relation of Dale J. Crittenden, auditor of state, by Richard M. Milburn, attorney general. The Merom state bank was closed on the order of the state auditor some days ago, after it was found impossible to straighten out a tangle in the bank's affairs, resulting from lending money to the Anchor Life Insurance company against which a suit has been brought for receiver by the state, Harry L. Arnold, attorney in the state insurance department, having been designated by the Marion superior court to handle the affairs of the company. Approximately \$20,000 of the bank's money had been lent to the insurance company, it is said.

JAPAN OUT IN DENIAL

Rumors of Establishment of Naval Base in Mexico "Preposterous."

HAS NEVER HAD SUCH INTENTION

Embassy Explodes Turtle Bay Sensation Wired from Los Angeles.

Washington, April 15.—An official statement authorized by the Japanese embassy today characterized as "preposterous" reports that a naval base had been established at Turtle Bay, Lower California and declared "There never has been any intention on the part of the Japanese government to locate a naval base or occupy any territory on the west coast of Mexico."

Operations of Japanese warships in Turtle Bay, embassy officials said, were solely for the purpose of salvaging the stranded cruiser Asama. It was stated that while detailed reports from the scene had not been received, as the consul general at San Francisco was handling the matter, landing on the shore of the bay probably had been found necessary in connection with the salvage work. Of reports that a naval base had been established the statement said: "It is more than absurd; it is preposterous. There never has been any intention on the part of the Japanese government to locate a navy base on the west coast of Mexico. A few Japanese fishermen, about a score in number perhaps, frequent the waters of this bay but they have no connection whatever with the naval establishment."

Did Not Disturb Washington. Dispatches from Los Angeles telling of the gathering of foreign warships in the secluded Mexican haven, of a large camp ashore and of mines laid in the harbor created no sensation among Washington officials. Assistant Secretary Roosevelt said the navy department was without advice as to just what had happened but that if anything extraordinary was going on it certainly would have been reported by the American warships in the vicinity. He added that it would not be unusual if the Japanese had landed in connection with their efforts to save the Asama. When the Asama first went ashore and news of her plight came to Washington, every effort was made to prevent the information reaching Germany before assistance could be sent. Responding to the call for immediate aid for the personnel of the Asama Admiral Howard hastened to Turtle Bay from San Diego on his flagship, the cruiser San Diego and the cruiser Raleigh also went to the scene. But before the aid of these ships could be extended a Japanese collier and two Japanese warships appeared and Admiral Howard steamed away.

SMITH LINE IS UNBROKEN

Son of Former Prophet Heads Latter Day Saints' Church.

Lamoni, Iowa, April 15.—Frederick M. Smith, of St. Joseph, Mo., was elected president of the reorganized church of Latter Day Saints, to succeed the late Joseph Smith, according to an announcement today. The request of the former prophet naming his son as his successor was complied with last night. The conference will adjourn this week. The new president is said to be recovering from an illness at Worcester, Mass.

HOLD THEIR FIRST BUSINESS MEETING

Undertakers of Northern Indiana to Perfect Organization.

The first business meeting of the Northern Indiana Undertakers association which was formed in this city February 28, will be held Thursday evening at the Elks' temple on West Berry street. A banquet will be served and following this, business matters will be disposed of. The organization will adopt a constitution and a set of by-laws at this meeting. The committee of thirty men from various towns in Northern Indiana who was appointed to draw up constitution and a set of by-laws arrived in the city Thursday noon and stated that their work had been completed. It is expected that the members of the association will decide to become affiliated with the state organization, which body they expect to entertain in Port Wayne in 1916 at the annual session. The association feels reasonably sure that they will be able to have the undertakers of the state meet here next year for by that time Port Wayne will undoubtedly have a large assembly hall. All those members who arrived Thursday noon were taken to the Palace theater in the afternoon as guests of the secretary, Will H. V. Feltner. Following the performance they will meet at the Elks' temple where a banquet will be served at 6:30 o'clock.

WILL CONTESTANTS LOSE THEIR FIGHT

Jefferson City, Mo., April 15.—The supreme court of Missouri yesterday denied the application of contestants of the will of James Campbell, millionaire public utilities financier, for a writ of prohibition to prevent the circuit court of St. Louis from hearing the case first only on the issue of whether Mrs. Lois Campbell Burkham is the daughter of James Campbell. The entire estate of about \$16,000,000 was left to Mrs. Florence Campbell, the widow, and Lois Campbell, referred to in the will as "my daughter" by Mr. Campbell. After their death it is to go to St. Louis university. The will is being contested by a number of distant relatives of Mr. Campbell who claim he died without leaving an heir and that he was unduly influenced in making the will.

SENTINEL NEWSIES GUESTS AT LYRIC

Little Merchants Enjoy Another Step in Week's Funfest.

Yesterday was another big day for the little street merchants who sell the Daily Sentinel, about 300 of them being entertained at the Lyric theater, where a special program was arranged for them by P. S. Warner, the manager. The boys gathered at the Sentinel office at 6 p. m. yesterday and after a short talk by Tom Tomison the Newsboy King, the small army of youngsters proceeded through the principal streets, yelling and cheering with all their might until they reached the theater. The boys marched quietly into the theater and showed the appreciation by liberally applauding each and every picture. Today the Newsboy King will appear on the downtown streets selling the Sentinel in his usual manner, his object is to show the inexperienced newsies how to feature the front page headlines, how to use their voices and also outline the large city fashion, when big news appears in the papers. Tomison has some voice for a little fellow, and will no doubt open up the traffic when he turns loose.

Tonight at 6 p. m. the boys will meet at the Sentinel office where they will be given free tickets for the Minnet theater, where a special program will be arranged for them by the manager. Tomorrow night at 6 p. m. will be Orpheum night. "Oce!" but it's great sell for Daily Sentinels, the new slogan adopted by the Little Street Merchants.

EIGHT ARE DROWNED WHEN DAM LETS GO

Arizona Residents Lived Directly Beneath Big Structure.

Jolbrook, Ariz., April 15.—Lyman reservoir, which impounds waters of the Little Colorado river twelve miles south of St. Johns, Apache county, broke at midnight last night drowning eight persons. A reservoir at Hunt, northwest of St. Johns, is in the path of the flood and if the dam there, which is threatened, gives way, Woodruff, 12 miles southeast of Jolbrook, will be in danger. The eight persons drowned had been living directly under the reservoir dam which collapsed as did a similar but smaller dam, ten years ago. No great damage has been done at St. Johns. Three of the eight persons drowned at Lyman dam were the children of Mr. and Mrs. Ellis Palmer and grandchildren of Mrs. Rachael Berry, one of the two women members of the Arizona state legislature. Lyman reservoir furnished water to irrigate thirty thousand acres.

WIFE OPENS FIRE ON HER HUSBAND

Indianapolis, Ind., April 15.—Harvey Hays, of this city, is today suffering from a bullet wound in the head and his wife, Bertha, from whom he has been separated for some time, is in jail charged with doing the shooting. Hays last night attacked a man that was with Mrs. Hays and punished him severely. Later when he approached Mrs. Hays she fired two shots at him, one shot striking him above the right eye. Hays said he succeeded in taking the two revolvers from his wife.

JUDGE ROBY'S MOVE FUTILE

Chicago Court Refuses to Lower Appeal Bonds of Terre Haute Men.

ADVISES A RETURN TO JUDGE ANDERSON

Sheriff Shea Now Expected to Withdraw Appeal and Take His Sentence.

Chicago, April 15.—Attorneys for Donn M. Roberts and other men convicted at Indianapolis of the Terre Haute election fraud cases, failed today to obtain a reduction of the appeal bonds of their clients. They argued a petition in the United States circuit court of appeals, but Judge C. C. Kolsatt said he would not interfere in the case and advised them to make their application before Judge Anderson, who presided at the trial.

The application in the Chicago court was filed yesterday by Judge Frank S. Roby, of counsel for the Terre Haute defendants, and it is said to have caused surprise at Indianapolis, where a similar writ had been granted by Judge Anderson last Monday. District Attorney Dailey hurried from Indianapolis to Chicago last night to oppose the granting of the writ here. The application for a writ from the higher court, when the same thing had been granted by Judge Anderson, was regarded by federal officials and by other attorneys as an attempt to modify Judge Anderson's order with reference to the appeal bond. It was also regarded as an attempt to fly over the head of the court at Indianapolis to obtain a writ that Judge Anderson previously had granted.

Denies Shea Has Been in the Marion county jail here since he received his sentence at the hands of Judge Anderson last Monday. The ship surgeons said today that members of the crew suffering from beri-beri were much improved. Thirty-one new cases have appeared since the raider arrived here.

DEATH'S TOLL 15; GROWING

Others Injured in Detroit Street Car Tragedy Will Succumb.

STATE OFFICIAL PROBES DISASTER

Student Motorman Blamed for Sending His Car in Front of Train.

Detroit, Mich., April 15.—The death list due to the collision of a Detroit, Toledo and Ironport freight train and a crowded street car here last night was increased to fifteen, eleven women and four men, today, when one of the injured women died in the hospital where more than a score of the wreck victims were taken. The recovery of at least three others of the injured was considered impossible.

Charles S. Cunningham, state railroad commissioner, has already begun an investigation in behalf of the state to determine who shall be officially declared responsible for the accident and at the same time the police and the county coroner are conducting separate inquiries.

J. C. Westover, student motorman, who was operating the car when it ran onto the railroad crossing, and Richard Vallade, the regular motorman, both of whom were taken into custody last night on manslaughter charges, were closely questioned again today by members of the prosecuting attorney's staff. Three of the dead were identified during the day as Elizabeth Gawarzynski, Valera Catus and Vernika Catuska, but at noon there were still the bodies of five whose names had not been learned.

STUDENT MOTORMAN BLAMED

Detroit, Mich., April 15.—To the inexperienced of a student motorman is charged the death of fourteen persons, ten of them women, who were killed last night in a collision between a street car and a freight train on the tracks of the Detroit, Toledo and Ironport railroad in the Western End of this city.

According to the police the unexplained in activity of the student's instructor also contributed to the disaster. Twenty-eight other persons were injured, four of them so seriously that their death is believed to be certain. Early today only seven of the dead had been identified and it was said at the morgue that some of the bodies are so terribly mutilated that their identification will be well nigh impossible. How It Happened.

With a heavy load of passengers homeward bound the car, handled by Student Motorman J. C. Westover, halted as it reached the railway crossing, the conductor ran ahead, and seeing a string of freight cars pushed by a switch engine approaching the intersection, signalled the motorman to wait until it had passed. The novice misunderstood the signal and turned on the power. The car started down the slight incline leading to the railway tracks. When too late the motorman shut off the current and applied the brakes but the car slid along and stopped directly in the path of the oncoming train.

Crashes Into Car. The leading freight car crashed into the street car, striking it squarely in the middle. The railroad tracks at the place where the accident occurred occupy a narrow street. As the car swept away from the crossing one end of it struck and demolished the front of the Delray station which stood on one corner and the other end tore out a part

\$50,000 Worth of Silk Loot of Train Bandits

Buffalo, April 15.—A dozen bandits and the three other members of the train crew were lined up against a box car and placed under guard of a single bandit while the others looted the merchandise cars. Four five-ton automobile trucks were in waiting and were quickly loaded with the booty. Engineer Goss, of Syracuse, escaped the guard and running a fusillade of shots reached his engine in safety. He made a record run into Suspension bridge, eight miles away and gave the alarm. Police and armed citizens were hurried to the scene but the robbers had made good their escape. The robbery was the most daring of its kind that has ever occurred on this section of the country and the amount of plunder far exceeds in value the proceeds of any other freight train robbery in the history of eastern railroading.

FIREBUG IS SEEKING TO BURN KALAMAZOO

Ten Fires at Widely Separated Points Occur Within 24 Hours.

Kalamazoo, Mich., April 15.—Ten fires which have broken out in widely separated parts of Kalamazoo within the last 24 hours, have led to the belief that an incendiary is at work trying to destroy the city. Two downtown business blocks were destroyed yesterday with a loss of more than \$100,000, and eight other fires were extinguished before they gained great headway. Every available fire apparatus was

in use throughout the day and scores of volunteer firemen were pressed into service. Twelve members of the department, including Chief Russell and Assistant Chief Welsh, were overcome by smoke, their lives being saved by the use of a pulmotor.

The buildings destroyed include the Kalamazoo hotel, a small structure; the Johnson wholesale liquor house; Johnson-Howard Lumber and feed store, and the Waterbury livery barn. Three other buildings were badly damaged. One of these was the Kalamazoo Laundry company's plant, where nine of the firemen were overcome. In every case, it is declared, piles of shavings and rags saturated with oil, were discovered by the firemen when they reached the scene of the blaze.

Other fires were started among the lumber piles of the Dewing and Sons yards, at the plant of the Globe Casket company and at the Meulenbergh Sheet Metal works.

RESIGN? I SHOULD THINK NOT, HE SAYS

Roberts, in Jail, Flatly Refuses to Resign Mayor's Chair.

Indianapolis, April 15.—Mayor Donn M. Roberts, one of the men sentenced to the federal penitentiary in the election conspiracy cases, refused to resign as mayor of Terre Haute yesterday afternoon when requested to do so by two members of the Terre Haute city council, John Cronin and George Olm, who called on him at the Marion county jail, where he is being held, pending his efforts to obtain \$60,000 appeal bond.

"It's a fine time to jump on a fellow when he is down," declared Roberts as he turned away from the two councilmen. Of the twenty-one persons who were given sentences by Judge A. B. Anderson to the federal prison at Leavenworth, Kansas, 12, including Roberts, are still seeking to obtain appeal bonds; six have been released on their promise to start for the prison unattended not later than noon next Sunday and two others who withdrew from the appeal, are still in jail, waiting until United States Marshal Mark Storen decides to accompany them to prison. Another, Edward Holler, former chief of police, who pleaded guilty, is also in jail awaiting time to be taken to prison.

When the question of bond was mentioned to Roberts today, he retorted: "I am appeal without a bond." "It is not known how much more time the men will be given in which to try to get bonds. It is probable, however, that they will not be taken away from here before Saturday or Sunday."

DIPHTHERIA IS FATAL TO WALTER S. PALMER

Weather Forecaster Dies Suddenly at Home on Clifton Street.

After an illness of four days with diphtheria, Walter S. Palmer, 48 years old, head of the Fort Wayne weather station, died Wednesday afternoon at 4:20 o'clock at the family residence, 1423 Clifton avenue.

The seriousness of Mr. Palmer's illness was not realized until a few hours before his death when a weakened heart condition hastened the end. The deceased was at work Saturday and appeared in good health. Sunday he was taken ill with what was at first thought to be tonsillitis. He grew rapidly worse, though at no time was his condition regarded as alarming, until shortly before he passed away.

Mr. Palmer came to Fort Wayne four years ago from Cheyenne, Wyo., and though a resident of this city but a comparatively short time he made friends rapidly and was held in high esteem by all who knew him. Few men were more devoted, more capable or more conscientious in their work.

Mr. Palmer was held in high esteem by the government weather bureau officials. He opened the station in this city and took advantage of every opportunity to better the service and to more efficiently serve the public.

Born in Michigan.

The deceased was born in Napoleon, Mich., April 21, 1866, and spent his early life on a farm near that place. His early education was received in the public schools of Napoleon and later he attended the Michigan Agricultural college, graduating from there with the class of 1889. His first employment was as a teacher in the high school at Spokane, Washington, which position he held until 1895, when he entered the government service, being assigned as assistant observer at the Chicago station. He remained in Chicago three years when he was transferred to Cheyenne, Wyoming, as section director of the state weather work. He remained in Cheyenne for thirteen years and came to Fort Wayne in May, 1911, to open the local weather station. He had been in charge here since.

Mr. Palmer was united in marriage shortly after graduating from the Michigan Agricultural college. His wife died nine years ago and five years ago he was again married. He is survived by his wife, two children by his former marriage, Claude Reed Palmer and Irvin Palmer, and two stepchildren, Miss Ora Lee Canfield, of Detroit, and Alexander A. McCabe, of this city. He also leaves two brothers, Herbert S. Palmer, of Philadelphia, who was here but a few weeks ago for a short visit, and Louis G. Palmer, of Napoleon, Mich.

The deceased was a member of the Masonic bodies at Cheyenne, but had never transferred his membership to Fort Wayne. He also was a member of the Plymouth Congregational church.

The flag on the observatory building, where the weather station is located, was placed at half mast Thursday morning. H. T. Collman, assistant weather observer, will be in charge of the local station until such time as a successor to Mr. Palmer is named.

Funeral services were held privately Thursday afternoon at 4 o'clock. Rev. A. J. Folsom officiating. Interment in Lindenwood cemetery.

FALSE TEETH FREEZE AT A SUMMER RESORT

Early Resorters Are Not Singing "This is the Life."

Winstead, Conn., April 13.—A number of summer cottages at Highland Lake have taken on life this week, the early arrivals having expressed a desire to see nature unfold herself.

One city woman omitted by request, on rising found her false teeth were frozen. Before retiring she deposited them in a glass of water which also placed on the window sill of her room. The mercury touched 15 degrees above zero and also her teeth. Pointing to the hemlock trees standing erect in the middle of icebound Second Bay, a city girl remarked: "Mother, isn't it strange how trees will grow through ice?"

The curious girl was informed that the trees had been planted in the ice field by fishermen to protect them from the elements when the fish were not biting. Then she wanted to know if there were any suckers in the lake.

GERMANY DECLARES RUSSIA HAS FAILED

London, April 15.—Failure of the Russian attempt to invade Hungary was announced today by the German war office. The statement is made that the effort of the Russian army from Przemyśl to force the Lupkow and East Dukla passes was not successful and that its attacks at several points along this front resulted in defeat with heavy losses. In consequence, it is said, the attacking power of the Russians has lessened visibly.

Although official reports from Petrograd concede no such reverses, they indicate the Russian advance has been brought virtually to a halt. The Russian war office says "slight progress" was made near Uzsok pass and a counter attack at Koziova by the Austro-German forces failed. The German report, speaking of the Koziova fight, asserts the Russians were repulsed with large losses. The Russian report makes no claim to further progress in the Carpathians except at Uzsok pass.

Advices have been received in Rome from Saloniki that the intervention in the war of Rumania appears to be imminent. It is said the Rumanian army is well equipped and ready for instant action. Operations along the western front once more are nearly at a stand still. The vigorous counter offensive of the Germans in the Meuse-Moselle district apparently has checked the French initiative. Signs of increasing activity in Belgium and northern France, which in conjunction with the Meuse-Moselle battle, were regarded as a possible prelude to the long discussed general offensive, are no longer apparent.

SUBMARINE'S HULL FILLED WITH WATER

Sunken F-4 Located by Diver at Depth of 288 Feet on Sea's Bottom.

Honolulu, April 15.—The superstructure of the submarine F-4 is caved in and the hull is filled with water, probably from seepage according to a report made by Chief Gunner's Mate George D. Stimson, who late yesterday descended to the ocean floor and examined the wreck after Frank Crilly, a diver, had located the submarine earlier in the day. Stimson, who made a partial survey of the hull reported that, aside from the damage to the superstructure he was unable to find any other holes and that the top plates were not crushed in.

One of the lines used by the searchers in their attempt to locate the F-4 had fouled in the superstructure. Work was to be begun today to free the fouled line and to make others fast to the submarine. Two lines are already fast to the wreck.

Neither Crilly, who was under water two hours, nor Stimson, who was submerged for an hour and a half suffered ill effects although according to official announcement by naval officers the submarine is lying at a depth of 288 feet. A board of investigators named yesterday by Rear Admiral Charles B. Moore, commandant of the Honolulu naval station, made an examination of the submarine F-12, F-2 and F-3, the remaining vessels of the flotilla stationed at Honolulu.

The Lakeside Aid society will give a pedro party in Harmony hall on West Berry street, Friday afternoon, to which the public is cordially invited.

GOVERNMENT WILL QUIT BUYING WHEAT

London, April 15.—Announcement of the government's decision to cease purchasing wheat was conveyed yesterday in a letter from the board of trade to the London Corn Traders association stating that in view of representations made to the government that its action in purchasing wheat was preventing a resumption of normal trading, it had been decided to make no further purchases. Estimates vary as to the quantity of the grain bought by the government and nothing is known regarding the use it is intended to make of it. It is understood that the rapid advance in prices in recent months caused merchants to hesitate to deal in the commodity and the view was held that the government's action would best meet the situation. According to some reports of the grain thus acquired has been sold recently in London and Liverpool with the result that prices have been kept down but complete uncertainty regarding government operations caused considerable dissatisfaction in the market. For this reason it was decided to cease official operations in the commodity.

PASSENGERS IN A PANIC; MANY INJURED

New York, April 15.—Two women and a man were seriously injured and about fifty persons hurt in a panic of passengers aboard a Third Avenue elevated railroad train at Chatham square today. The panic resulted from the derailment of one car of a seven car train which failed to take a switch. A short circuit caused a small fire which added to the fears of the passengers. Men and women wedged tight in the cars fought to reach the elevated structure where they walked along the ties to the station turned into a temporary hospital to care for the injured. With the exception of the three taken to the hospitals none was seriously hurt. Traffic was tied up on both the Second and Third Avenue lines which join at Chatham square.

SLUMP IN SALOON LICENSES.

Bids in Chicago Show Lowering of Market Value of Permits.

Chicago, April 15.—Evidence that the market value of this city's 7,152 saloon licenses has suffered a severe slump, was seen when Federal Judge Landis undertook to dispose of the 50 licenses that came into his possession with the bankruptcy of the Rosetti Brewing company. A year ago licenses brought from \$2,500 to \$2,800. Judge Landis yesterday received only one offer and that for only \$1,200. This he refused.

Fear of successful anti-saloon legislation, if the license given, speculators and license brokers anticipating further dry activity, it was stated. The law provides that no new licenses may be issued until the city is nearly double its present size.

Sixty years' supply of natural gas at the present rate of consumption has been wasted in Oklahoma in recent years, according to government figures.

NEWS OF FORT WAYNE'S NEIGHBORS

LARWILL PIONEER IS DEAD.

Columbia City, Ind., April 15.—Uriah H. Clark, civil war veteran of company K, Eighty-eighth Indiana regiment, and resident of Richland township, for more than three score years, died at his home near Lake View cemetery Wednesday after an illness of about a week's duration due to severe sore throat and meningitis. He was seventy-four years, four months and twelve days old. Mr. Clark was well known about Larwill. During the past few years he has not been able to do hard work, but he has been a handy man for scores of people. He lived near the cemetery and devoted a considerable portion of his time to caring for it and keeping the grass and weeds cut. On holidays and anniversary days of great events of history, Mr. Clark always exhibited his patriotism by displaying the American flag in his yard.

DAMAGE SUIT DISMISSED.

Portland, Ind., April 15.—An unexpected move, resulting in the dismissal of the case, so far as the present trial is concerned, was taken in the suit brought by Ella Andrews against Jeff Klopferstein. Probable settlement, and the Illinois Surety company, asking damages in the sum of \$10,000 for the death of Wade Andrews, husband of the plaintiff, who was killed August 1, 1914, in an automobile accident while intoxicated. It was charged in the complaint that the sale of liquor to Andrews by Klopferstein was the direct cause of his death. The case was venued from Wells county, having been originally instituted in Adams county. The trial was begun before a jury Monday noon and the evidence had been completed late Tuesday evening, leaving only the arguments of attorneys to bring the case to an end.

TAKE CHILDREN FROM PARENTS.

Auburn, Ind., April 15.—The case of the board of children's guardians vs. Charles Mercer and wife, was up before Judge Link for adjustment Wednesday. Mercer and his wife are the parents of three boys, Henry, aged 13; Ward, age 10, and Jay, age 8. These boys have earned a bad reputation in their home town, Cornum. They swear, smoke and steal, and the people of Cornum thought it the proper thing to present the matter to the board of children's guardians of DeKalb county, to which body Judge Link committed them.

INJURED WOMAN IMPROVES.

Montpelier, Ind., April 15.—Mrs. Clem Pugh, who was seriously injured a few days ago when the buggy which was en route to her home overturned, is improving. Mr. and Mrs. Pugh and Miss Sloy Ayers, sister of Mrs. Pugh, had attended the tabernacle services here and on account of the rain had closed their storm buggy in which they were riding. When they reached the Spaulding farm east of this city, two automobiles approached them, one from the rear and the other from the front. Mrs. Pugh, who was driving, turned out for

KEPT MARRIAGE A SECRET.

Auburn, Ind., April 15.—Married at Coldwater, Mich., almost a week ago, Charles Thatcher and his wife, formerly Miss Marie Hebel, were given a royal send off when they left Auburn Wednesday for their future home at Fort Myers, Florida. Mr. Thatcher and Miss Hebel left Auburn last Thursday for Coldwater, Mich., driving in an automobile, and the same evening at 7:30 they were married at the home of Mr. Thatcher's uncle, Fred Fulkerson and family. The marriage ceremony was performed by Rev. G. C. Lamont, of the Baptist church in that city.

BLIND TIGER CASE ON TRIAL.

Warsaw, Ind., April 15.—Charged with violating the liquor laws of the state of Indiana, Susan Searfoss and James Brissel, both of Syracuse, were arraigned in the circuit court for trial Wednesday before a jury. Owing to the large number of witnesses summoned by the state the evidence will not be completed before Thursday. A raid was made on the hotel at Syracuse, operated by Brissel, on Saturday afternoon, February 27, and five barrels of beer, several bottles of whiskey and a quantity of gin was taken. The liquors were brought to this city and placed in the county jail.

LAST OF FAMILY DIES.

Van Wert, O., April 15.—Mrs. Julia A. Carper, wife of F. H. Carper, of West Main street, one of Van Wert's most esteemed residents, and the last surviving member of the family of Joseph Gleason, pioneer settler of this county, died at her home after an extended illness, death coming as the result of cancer, with which she had been afflicted for several years. Mrs. Carper was one of those quiet, unostentatious women, whom it is a benediction to know, and possessed a host of friends who honored her for her womanly virtues. She was sixty-seven years of age, and was born in this county, having made her home here all her life.

EAT THREE DOZEN EGGS.

Columbia City, Ind., April 15.—In their lodge rooms in this city the local Woodmen held their annual egg feast. A large crowd was present, including several visitors. The Woodmen have held the egg feast annually for a number of years and generally make it a point to have it around Easter time. Frank Meitzler won the prize as he is credited with having eaten just 36 hard boiled eggs and then said that, if necessary, he would make it a few more.

FIND HUNTINGTON UNTIDY.

Huntington, Ind., April 15.—The committee on streets and alleys of the Women's Civic Improvement league made a tour of inspection over the city.

On their trip it was found that fully 75 per cent. of the garbage cans are left uncovered. The committee further reported that as a general proposition the condition of the city at this time is rather untidy, yet it was the opinion of the committee that preparations are being made by the citizens to join in the clean-up week propaganda and aid in making Huntington a "spotless" town. Some very bad conditions were found on the inspection tour.

GETS \$18,000 FOR LODGE DEATH.

Hartford City, Ind., April 15.—In the courts at Birmingham, Ala., Thomas P. Kenny, former Hartford City resident, and father of Donald A. Kenny, who also formerly lived in this city, was awarded judgment for \$18,000 in his damage suit against the supreme lodge, Loyal Order of Moose. The case grew out of the death of Donald Kenny when he was being initiated in the Moose order. The word of the outcome of the case was received in this city Wednesday by Miss Emma Sydworth, an aunt of Donald Kenny.

DELPHOS MAN IN TROUBLE.

Delphos, Ohio, April 15.—Accused of assaulting, with evil intent, fifteen year old Arren, daughter of Mr. and Mrs. John J. Brabant, of Delphos, Ralph Seering, twenty-two, an employee of the Delphos Manufacturing company, is now a prisoner in jail, awaiting arraignment. He denies that he is guilty. Seering is alleged to have attacked the girl while escorting her to her home from a party.

INJURIES CAUSE DEATH.

Her death was caused by a fall which she suffered several weeks ago. Her hip was fractured and never healed. The decedent is survived by three children, Mason Palmer, of this city, and Jesse and James L. Burson, of Montpelier. Thirteen grandchildren and nine great-grandchildren also survive.

INSTANT POSTUM

This delicious, pure food-drink contains no caffeine nor any other harmful ingredients. It is wholesome and invigorating, with a snappy flavour very like that of the Old Gov't Javas.

And Instant Postum is so easy to make. Put a level teaspoonful in a cup and add hot water—that's all.

The convenience of Instant Postum is seen at a glance. Sold in 30c and 50c tins. Some prefer Postum Cereal—the original form, which must be well boiled. 15c and 25c packages.

Grocers sell both kinds, the flavour is equally delicious and the cost per cup is about the same.

THE SENTINEL'S DAILY SCRIPTURE READING.

Proverbs 1:20-33.

20 Wisdom crieth without; she uttereth her voice in the streets:
 21 She crieth in the chief place of concourse in the openings of the gates:
 In the city she uttereth her words, saying,
 22 How long, ye simple ones, will ye love simplicity? and the scornors de-
 light in their scornings, and fools hate knowledge?
 23 Turn you at my reproof: behold, I will pour out my spirit unto you,
 I will make known my words unto you.
 24 Because I have called, and ye refused; I have stretched out my hand,
 and no man regarded;
 25 But ye have set at nought all my counsel, and would none of my re-
 proof:
 26 I also will laugh at your calamity; I will mock when your fear cometh;
 27 When your fear cometh as desolation, and your destruction cometh as a
 whirlwind; when distress and anguish cometh upon you.
 28 Then shall they call upon me, but I will not answer; they shall seek
 me early, but they shall not find me:
 29 For that they hated knowledge, and did not choose the fear of the Lord:
 30 They would none of my counsel: they despised all my reproof.
 31 Therefore shall they eat of the fruit of their own way, and be filled
 with their own devices.
 32 For the turning away of the simple shall slay them, and the prosper-
 ity of fools shall destroy them.
 33 But whose hearkeneth unto me shall dwell safely, and shall be quiet
 from fear of evil.

Trade Balance Growing.

The balance of trade in favor of the United States is approx-
 imately \$600,000,000 for the four months ended March last, accord-
 ing to figures just made public by the department of commerce. The
 balance has grown at an average of \$150,000,000 a month during the
 last four months. The imports for March are estimated at \$160,000,-
 000 and exports at \$305,000,000, with excess of exports of \$145,000,-
 000. The duties collected during March totaled \$19,586,325.

Figures thus far at hand for April show slight decreases for the
 first week in the month, but the balance is still heavily on the right
 side of the ledger.

For a good many years we have been taught by protectionists to
 point with pride to a "trade balance." That is to say, we were
 taught that the measure of prosperity in any country was the de-
 gree to which its exports exceeded its imports. The theory of pro-
 tection was that American workmen and farmers should be freed
 from the competition of the cheap labor of Europe and that America
 should reach out and seize the market of the world; keep her own
 home market; seek to sell to everybody and to buy as little abroad
 as possible. What little merchandise would come in was looked
 upon as a necessary evil and by laying upon it large tariff taxes its
 import was discouraged and it was laid under tribute to pay the
 running expenses of the government.

The new tariff law, designed to correct manifest evils in the old
 system, in response to popular demand, had hardly gotten into op-
 eration before a world-wide war put into operation the exact machin-
 ery of an ultra-protective tariff. There is no longer competition
 with the "pauper labor of Europe," for that labor is swallowed up
 in the maw of war. Imports are at a minimum and exports at a max-
 imum, yet there are those who profess to believe that the cause of
 depression has been not the war but the lowering of the tariff. As a
 matter of plain fact, pretty nearly all rules of trade as well as of
 life appear to be subject to what the railroad men call "change with-
 out notice" in war time. There can be no normal test of any system
 with half the world at the throat of its neighbor.

The Indiana supreme court has just contributed a valuable
 service by a construction of the liquor laws of the state relative to
 the sale of intoxicating liquors by druggists. The decision is made
 in affirming the Steuben circuit court in its conviction of Erman
 Shank selling a pint of whiskey to Dick Johnson. Apparent conflict
 of laws passed by the legislature of 1907 were seized upon as a de-
 fense in the case. The high court now disposes of the tangle by the
 ruling that the two statutes must be construed together, and that a
 druggist is prohibited from selling less than a quart of liquor ex-
 cept on the prescription of a licensed physician. The plain intent of
 the law has never been in question, but its complicated phraseology
 had led to confusion which is now cleared away by the supreme
 court's construction.

The sudden death of Walter S. Palmer, Fort Wayne forecaster
 for the United States weather bureau, will come as a painful shock
 to the city generally. Mr. Palmer's work was of a character that
 made him known professionally, if not personally, to practically
 every resident of the city. His kindly personality and his splendid
 character endeared him closely to all within the rapidly-growing cir-
 cle of his acquaintance. Though a resident of Fort Wayne but four
 years, Mr. Palmer will be sorely missed, and his demise sincerely
 mourned here.

Though prevented, by circumstances over which he has no con-
 trol, from giving close personal attention to the job, Donn Roberts,
 from behind the bars of the Marion county jail at Indianapolis, in-
 dignantly rejected a request from councilmen that he resign as
 mayor of Terre Haute. The Terre Haute mayor may be pushed, but
 he has clearly indicated that he doesn't intend to do any reckless
 jumping to dispossess himself of a place on the city payroll despite
 his present engagement with the slings and arrows of outrageous
 fortune.

Mayor Balch, of Kalamazoo, believes that women should be en-
 couraged to attend the meetings of the city council and in that way
 become more familiar with the methods under which municipal af-
 fairs are conducted. To further encourage the attendance of ladies
 he has forbidden smoking by the city solons during council sessions.
 It is now pretty clear that Kalamazoo is sitting up and taking note
 of the trend of affairs.

Let us forget, tomorrow is the day designated by Governor
 Ralston as the spring Arbor day in Indiana. Plant a tree or a shrub
 in recognition of the occasion.

SCIENTISTS IN THE WAR.

(Indiana Daily Times.)

It is said a corps of professors are
 enlisted with the German army. Sci-
 entists at the front are not always
 found shooting or throwing up in-
 trenchments, or charging the foe. On the
 contrary, the German army is using the
 professors in war on lines that made
 these same professors valuable in peace.
 When the soldiers seek a fighting po-
 sition the geologist, with his eye for
 outcroppings, and with his geological
 map, picks the site for the trenches that
 must be dug, and informs the command-
 er as to the proper tools to be issued
 for the work. In this way under-strata
 of stone are avoided, and the trenches
 are located on ground which yields read-
 ily to pick and shovel. All of which
 means safety for the army at the front
 and speed in providing field fortifica-
 tions.

There is the meteorologist with the
 army. It is up to the scientist who
 studies weather conditions to supply in-
 formation on which the aviators may
 act. The airmen of the German army
 are advised in advance by scientific men
 who carry their instruments in limous-
 ines along with the marching columns.
 Professors of languages are used at
 the very front where prisoners of other
 and strange nations are to be inter-
 viewed. Students of sociopolitical prob-
 lems in Germany are working at this
 time on the problem of the war invalid
 —what to do with a grand army of
 cripples and economically untitled men.
 Other scientists are providing substi-
 tutes for copper and gasoline. Others
 are at work on the problem of subsea
 communication by wireless telephone, by
 wireless telegraph and by signal. In-
 cidentally, this problem has been worked
 out in the United States, and warships
 involved in the world-war are now be-
 ing equipped with a device for detect-
 ing the enemy's submarines; for di-
 recting friendly submarines and for lo-
 cating icebergs, carrying telephonic mes-
 sages and telegraphic communications,
 as well as signals of various sorts. This
 invention is being discussed the world
 over. It comes at a time of perilous
 need. Its importance cannot be over-
 estimated in connection with the war.
 In all this the mission of the "pro-
 fessor" looms large. It is unmistakably
 suggested that the man of books, the
 student, the investigator, the discover-
 er, the inventor, the scientist, is no
 less a factor in modern war than the
 "man behind the gun." In fact, the
 "professor" is as much the "man behind
 the gun" as the "pointer" or the heroic
 gun crew.

"AMERICANITIS."

(Dayton News.)

A Chicago physician says most of the
 illness in this country should be called
 "Americanitis." According to his state-
 ments, with the exception of a few in-
 fectious diseases, nearly all of the sick-
 ness in this country is caused by the
 mode of life followed by the Americans.

According to the physician Americans
 work too much, eat too much and ex-
 ercise too little. That brings about dis-
 ease. And of course he is right, al-
 though physicians are not always cor-
 rect in their diagnosis.

The working would not make so much
 difference if the worker would also play.
 The eating would not amount to so
 much if proper exercise were taken. But
 to work eternally, to gorge eternally,
 to gorge frequently, and to exercise not
 at all—well, the undertaker prospers.

 Kern that it has ordered the parole of
 Frank Lamar, of Terre Haute, who has
 served nine and a half years of an

 the influence of a drug, to which he was

 liberty. Lamar, who became a skilled
 musician during his incarceration, has

 Hangs Self to Rafter in
 His Barn.

Some months ago Mrs. William G.
 Bixler died. She and her husband had
 been companions since almost child-
 hood. For over half a century they

had traveled life's pathway together
 and with the advancing years the devo-
 tion to each other had increased. Their
 honeymoon had never ended.

Sad and lonely Bixler went to the
 barn in the rear of his residence at 1911
 Sinclair street, Wednesday afternoon,
 and tying one end of a rope to the sup-
 ports overhead, put the noose about his
 neck and swung off to join the wife
 who had gone but a few months before.
 He was dead when a twelve year old
 boy living in the neighborhood looked
 in and saw his lifeless form suspended
 in the air. A smile of perfect content-
 ment seemed to be on his face for his
 loneliness had ended. He was eighty-
 five years old.

The boy found the body shortly after
 4 o'clock and immediately spread the
 alarm. The body was still warm when
 out down. Coroner Edward H. Kruse
 was notified and after viewing the re-
 mains ordered them removed to Klehn
 & Melching's undertaking parlors on
 East Washington street.

Bixler was last seen alive about 3
 o'clock by a neighbor, who was engaged

in digging post holes. The two chatted
 together for several minutes and there
 was nothing about Bixler's actions that
 gave the least intimation that he con-
 templated suicide. Since the death of
 his wife his health had failed rapidly,
 which is given as one cause for his act.

The deceased was born in Ohio in
 1830 and had been a resident of Fort
 Wayne for many years. He leaves two
 daughters, Mrs. William Kaiser and
 Mrs. Ralph Bayless, of Fort Wayne;
 three sons, John and William Bixler, of
 this city, and Isaac Bixler, of Spencer,
 Ind.; twenty-one grandchildren and one
 great grandchild.

Justice of the Peace Henry J. Grab-
 ner has been confined to his home for
 the last few days on account of sick-
 ness.

Edward ("Peg") Miller has resigned
 as chaplain of Herd No. 1, Denselent
 Order of Buffaloes. His successor will
 be named at the next meeting of the
 order Tuesday night.

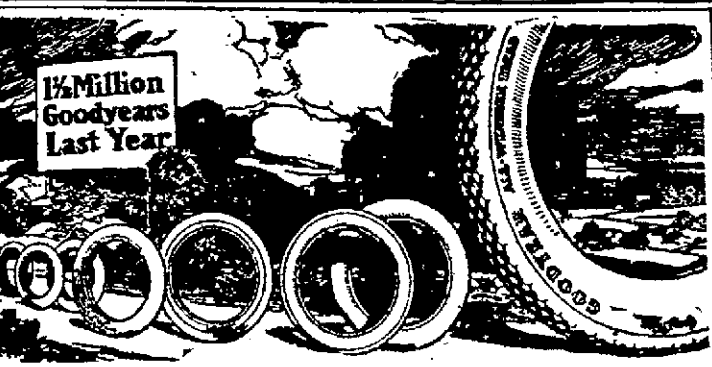

STOMACH SOUR? STOP INDIGESTION,
GAS, HEARTBURN—PAPE'S DIAPEPSIN

Don't suffer! Regulate your up-
 set stomach in five
 minutes.

Do some foods you eat hit back—taste
 good, but work badly; ferment into
 stubborn lumps and cause a sick, sour,
 gassy stomach? Now, Mr. and Mrs.
 Dyspeptic, jot this down: Pape's Dia-
 pepsin digests everything, leaving noth-
 ing to sour and upset you. No differ-
 ence how badly your stomach is disor-
 dered, you get happy relief in five min-
 utes, but what pleases you most is that
 it strengthens and regulates your stom-
 ach so you can eat your favorite foods

without fear. Most remedies give you
 relief sometimes—they are slow, but not
 sure. Diapepsin is quick, positive and
 puts your stomach in a healthy condi-
 tion so the misery won't come back.

You feel different as soon as Pape's
 Diapepsin comes in contact with your
 stomach—distress just vanishes—your
 stomach gets sweet, no gases, no belch-
 ing, no eructations of undigested food,
 your head clears and you feel fine.
 Put an end to stomach trouble by get-
 ting a large fifty-cent case of Pape's
 Diapepsin from any drug store. You
 realize in five minutes how needless it is
 to suffer from indigestion, dyspepsia or
 any stomach disorder.—Adv.

The Giant Among Tires

Last year we sold 1,479,883 Goodyear pleasure car tires alone—about one for each car in use.

Yet Goodyear has some hundred rivals. How came this tire to dominate like that?

This is the reason: In the years before we sent into service millions of Fortified Tires. And those tires, by their records, sold the tires of last year. You know that's the only reason.

Supremacies

In at least five ways these tires excel all others. Each way is costly and important. Each is exclusive to Goodyear Fortified Tires.

GERMANS AT WORK RESTORING LODZ Captors Rapidly Bringing Order Out of Chaos in Polish City.

Lodz, Poland, April 1.—Correspondence of the Associated Press. Day and night are almost equally busy in Lodz. The German officials who are now in occupation are straining every resource to restore to the city its former character as an industrial and manufacturing center. New railways are being built, roads and bridges are being constructed, factories are being prepared for new uses. The German military men declare that they have come to stay, and they are making preparations accordingly. On the side of defenses, there has been not only a tremendous strengthening of communications, but also a great building of trenches all through the country roundabout.

The population of Lodz has always been largely German and Polish, but now every Russian official has disappeared, and the wealthy Russians who occupied the fine residences in the fashionable section of the city have crossed the frontier, leaving houses and furniture in the hands of their enemies.

Many of the German officers are quartered in the Grand hotel. A German prefect of police has been installed, with a force of Polish and German citizens under him.

Although the food situation was for some time acute, this has now been remedied. The Germans have established cheap soup kitchens and bakeries for the poor, as well as the number of cheap restaurants. Persons desiring to pass from town to town in Poland must purchase a fresh passport for each journey, and for this a fee of about twenty-five cents is charged.

All stocks of metals, wool, cotton, and other goods useful to the army have been commandeered and mostly sent back to Germany. Several of the factories have been opened and work is plentiful.

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "fruit laxative" cleanses stomach, liver and bowels.

A harmless cure for sick headache, biliousness, sour stomach, constipation, indigestion, coated tongue, sallowness—take "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels. A table-spoonful tonight means all constipation poison, waste matter, fermenting food and sour bile gently moved out of your system by morning without griping. Please don't think of

"California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative can not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Your only difficulty may be in getting the genuine, so ask your druggist for a 50 cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." This city has many counterfeit "fig syrups," so watch out.—Adv.

velvet ribbon in her hair and carried a bouquet of pink carnations. The bride presented a sweet and very attractive appearance in her wedding gown with veil fashioned into a cap for the hair and held in place with orange blossoms that were worn by her mother when she was married. The bridal gown was fashioned with a court train, and a drape that simulated an overskirt and hung on the sides in points that ended in pearl ornaments. The waist of the gown was cut in evening style. The bride wore no ornament but the groom's wedding gift, a brooch of flageolet gold and diamond setting. The bride's flowers were a shower bouquet of bride roses and lilies of the valley. Miss Frieda Dannecker, the honor bridesmaid, was handsomely dressed in an evening gown of gold color satin over which hung pale pink chiffon caught in place on the train and on one shoulder with pink flowers. In her hair Miss Dannecker wore a paradise feather ornament and her flowers were an arm bouquet of pink roses and sweetpeas. After the impressive wedding service as Prof. Korn played the Mendelssohn wedding march the bridal party left for the bride's home where an informal reception was held, followed by a dinner at 7 o'clock. The house was very pretty with many flowers, palms and festoons of green and the bride's table was decorated with a large and elaborately frosted wedding cake wreathed in smilax, white candles and bride roses. Later the bride and groom started on their wedding trip which takes them to both expositions in California and a trip to other points of the Pacific coast. They are to be gone about six weeks and will not be at home to their friends in their own residence at 1309 West Jefferson street, until the first of July. For traveling the bride is wearing a tailored suit of dark blue serge with blouse of blue crepe chiffon and small tailored black hat trimmed in blue. The bride is a young woman of much refinement of character. The groom is a bookkeeper for the Tri-State Loan and Trust company, and an admirable young man in every way. Sauersteig-Dannecker.

The wedding of Miss Clara C. Dannecker, daughter of Rev. and Mrs. H. P. Dannecker to Mr. Otto E. Sauersteig, son of Mr. and Mrs. John G. Sauersteig, took place on Wednesday evening in St. John's Lutheran church, of which the bride's father is the pastor. The bride entered the church to the music of the bridal chorus from "Lohengrin," played by Prof. Korn, of Michigan City, with her father. In the bridal party were the bride's sister, Miss Frieda Dannecker, who was honor maid and the Misses Mamie and Emma Jacobs, of this city; Clara Korn, of Michigan City, and Margaret Dannecker, a cousin of the bride from Van Wert, O., who acted as bridesmaids. At the altar the bride met the groom and his best man, Mr. Herbert Sauersteig. Two little girls and the ushers were other members of the bridal party. The children, Catherine Dannecker and Helen Bittler were ribbon bearers, and Messrs. George Bittler, of Indianapolis; Luther Dannecker, Marvin Koehn and Walter Vetter were ushers. Preceding the coming of the bride and her attendants a musical program of beautiful songs had been given by Miss Henrietta Schneider, a soprano, of Grand Rapids, Mich., with Prof. Wiggert, organist of the church accompanying her. Miss Schneider sang "I Love You Truly," "Song of the Heart," "Calm is the Night," and "Beloved, It is Morn." The church was decorated with palms, ferns and pale pink carnations and calla lilies and formed a beautiful setting for the lovely coloring of the bridesmaids' gowns. The little ribbon bearers were in white with pink ribbon sashes and bows. The bridesmaids were dressed in gowns of pussy willow satin with old-fashioned looking full skirts with high waist line and the bottom of the skirts cut in big scallops. Clusters of flowers and quaint bows of narrow black velvet ribbon were other suggestions of an up-to-date fashion and yet were reminiscent of the colonial period. Pale blue, Nile green, maize and pink were the colors of the different gowns. Each young woman wore a butterfly bow of black

FOR PARENT-TEACHER CLUBS.

"Alice in Wonderland" Films at Colonial Theater Are a Benefit.

The Parent-Teacher clubs of the city are to receive a percentage of the receipts for tickets sold for the "Alice in Wonderland" film to be shown at the Colonial theater on Friday and Saturday. Manager Heiser of the Colonial has allowed a percentage on tickets and school children are permitted to sell tickets for five cents, while at the usual, ten cents. The Parent-Teacher clubs are interested in more ways than in the percentage they get. This opportunity for children to see just about their best loved fairy tale at half price is worth as much to parents as a benefit to their children as it is to the clubs who like to put a few dollars into their treasury for various uses at the schools. As for the film itself, many grownups will go to see it because they remember the delicious humor and charm of Lewis Carroll's story.

Harmer School P-T. Club.

There will be a meeting of the Harmer school parent-teacher club tomorrow afternoon at 3:30 o'clock. Mrs. Mary Edson will give a talk about sewing for girls.

AT THE MAJESTIC.

"The Trojan Women," to be presented at the Majestic theater tonight is a play that has won remarkable tributes of praise from every standpoint in metropolitan cities and also in smaller cities in which it has been seen. The tragedy is old, written by Euripides.

Try this new wafer!

Everyone likes them

They fill a long-felt demand for a cracker that would be not only highly nutritious and palatable—but also slightly laxative.

A grain of wheat contains all the essentials necessary to sustain life in just the right proportions. Consequently, whole wheat is an ideal food—and a cracker made from whole wheat would fill the requirements as far as the nutritive and palatable qualities are concerned.

Bran is laxative—but bran alone is not palatable.

Just the right proportions of these two ingredients—whole wheat and bran—had to be worked out to a nicety to produce this new wafer with all its appeal to the taste.

Perfection Bran-Laxa Wafers

—are truly a 'Back-to-Nature' cracker!

They are the result of a scientific study of the blending of flours and of baking processes.

There's something about the taste of them that makes you know how good, and wholesome, and nutritious they are.

AT THE JEFFERSON.

"THE SPANISH JADE."

Adaptation of Maurice Hewitt's Beautiful Romance Makes Popular Hit.

This adapting of this picturesque Spanish romance is the work of Louis Joseph Vance, the popular fiction writer, who has made a fine success in shaping the novel into one of the most brilliant photoplays seen by Jefferson audiences in quite some time. The work is sheer romance, full of the pulsing, throbbing life led by the quaint Spaniards, and it is so true to life that the figures on the screen seem fairly to move and breathe in actuality.

The star of the piece, Betty Bellairs, is an actress having a wide experience both on the legitimate and mimic stage. Tomorrow Hobart Bosworth appears on the Jefferson screen at the head of a brilliant cast presenting, "The Country Mouse."

AT THE NEW PALACE

CLASSIEST ACT OF SEASON.

Cecil Lean and Cleo Mayfield Thoroughly Entrenched Here.

Cecil Lean, the famous musical comedy star, who is appearing in his final week of vaudeville on the New Palace bill, has what freely is being termed the classiest act of the season. Mr. Lean is assisted by Miss Cleo Mayfield in a group of song novelties that are particularly luscious. This famous star has brought to vaudeville the same engaging personality that made him such a favorite in musical comedy that the Shuberts are preparing to put out a pretentious production built especially for him and Miss Mayfield. They will go to New York Monday to start rehearsals for this production, "A Day in Paradise."

"After the Wedding" is a howlingly funny farce, in which Edward Farrell and players are appearing. There are two pairs of newly married couples in adjoining rooms in a hotel. Each of the brides is related to the opposite bridegrooms and the complications that ensue are brilliantly funny. Hawthorne and Inglis, a pair of nutty nuts, stage some foolishness of a nifty brand in their skit, "A Fool There Is." Some of the other Keith features are George N. Brown, the world's champion heel and toe walker; Herbert Dyer and Peter Alvin in a laughable job of acrobatic absurdities; Bill McDermott, the funny tramp, and Bernard and Scarth in a dainty little singing and talking act.

AT THE COLONIAL

"THE ROBBERS."

Noteworthy Attraction in Filmplay From Von Schiller's Immortal Work.

The name of Frederick von Schiller is to German literature what Tolstol is to the Russian, and Hugo and Dumas to the French. It has remained for the camera to give Von Schiller's work the most adequate presentation and in producing this magnificent celluloid edition of the classic, the company responsible for the photoplay has given American picture audiences a photodrama which will take first rank with the finest subjects of the kind ever released.

In the primary role of "The Robbers," we find Maurice Morrison, one of the greatest modern exponents of tragic roles. Mr. Morrison is well and favorably known by most theater-goers.

Popular Hostess at Noted Pleasure Resort

PICTURES OF FUTILE RESCUE WORK ON ILL-FATED AMERICAN SUBMARINE F-4.

Top picture shows United States sailors lowering a diver in search of the submarine F-4, which went to the bottom with a score of men on March 25 in Honolulu bay. The middle picture shows old anchor on which naval tugs pulled for hours, only to have their crews learn their mistake when the weight was finally brought to the surface. They believed the grappling hooks had located the submarine. The bottom picture shows G. B. Evans, the diver who went down 180 feet wearing only a helmet in search of the F-4. He is shown standing in the gangway of the U. S. S. Alert.

AMERICAN SLANG AND YANKEEISMS

Rapidly Finding Way Into Speech of Sedate Old English Folk.

London, March 30.—Correspondence of the Associated Press.—American slang and Yankeeisms are rapidly being incorporated into the speech of the people in England, owing to the vogue of American variety actors, ragtime songs and American books and plays. So one hears born and bred cockneys, who have never taken a four hours' trip from London, says the Globe, tell a person that he will "fix him up" with a much conviction as a Connecticut Yankee—for the expression is a true Yankeeism and has never been current in the southern states. Educated English men and women not only get off Americanisms unconsciously, but seriously. Newspapermen have borrowed largely of its slang from the states in "story."

"write-up," "throw down," "cub," "live paper" and the like. American business men have popularized in England such phrases as "made good" and "back to the woods," and "quick lunch" restaurants have sprung up. Even on the underground railways the conductors say, "step lively" instead of the old "please hurry up." Other bits of current slang attributable to American influence, ragtime and otherwise, are: "The glad eye," "I don't think," "some peach," "make a date," "freeze onto," "makes one tired," "surest thing you know," and kindred expressions.

The school for training officers, established by the British general staff, is located close to the general headquarters in France, and now has more than a hundred students, all picked from the ranks. The course occupies a month and combines theory with practice, although special emphasis is naturally placed on the practical side. The school occupies a comfortable old mansion. A group of barns and sheds have been fitted up as dormitories. In the courtyard is a great sand bank, where the students construct model trenches, and apply the theory of the text-book to practice. There are several class rooms equipped with blackboards on which the instructors fight over again some of the early battles of the war. There are courses in mathematics, in hygiene, and in other branches necessary for the equipment of a young officer. Not all the students prove to be of suitable material for commissioned rank. Part of the business of the school is to test the students as to their mental and moral capabilities for assuming rank as an officer in the field. Every week the student goes back to the trenches for twenty-four hours in company with an instructor, to observe and apply what he has been taught during the six days at the school.

HERE IS WHAT HAPPENED TO MR. LIEBIG'S TOURING CAR.

Two overland touring cars were wrecked, one of them being badly reduced, and several persons were slightly injured when the two autos came together at 1 o'clock Thursday morning at Lafayette and Williams street. One of the cars belongs to J. H. Liebig, 2226 Hanna street, who had with him Edward Kohlenberg, 2619 Weisser Park avenue, and the other was occupied by George Hilker, 901 Erie street, and Frank Hilker, 1510 Maumee avenue. With the Hilkers were two women that were hurried away following the

accident. Liebig says he recognized the woman as Mrs. Peter Harber and a Miss Shandell. Liebig says he was on the proper side of the street and was dashed into by the Hilker car, which he declares made a short turn and caught his own car amidstships, rendering it a complete wreck. The occupants of both cars were hurled out and all were somewhat cut and bruised. Liebig, a member of the firm of Liebig Brothers, proprietors of the Royal Dry Cleaning works, 322 West Jefferson street, says he will sue to recover damages for the damage to his car.

MRS. ROOSEVELT UNDER THE KNIFE

Wife of Ex-President Submits to Successful Operation.

New York, April 15.—Mrs. Theodore Roosevelt, who was taken to Roosevelt hospital last night by her husband, Col. Roosevelt, was operated upon early today. Dr. Alexander Lambert, of the Cornell medical school, was the surgeon in charge.

While the nature of Mrs. Roosevelt's ailment was not disclosed, it was stated that the operation was successful and the condition satisfactory.

During the operation Col. Roosevelt anxiously paced the private room in which Mrs. Roosevelt had spent the night. After the operation he was immediately notified of Mrs. Roosevelt's condition and left the hospital with his son, Theodore.

The colonel declined to discuss his wife's illness and referred inquiries to Dr. Lambert, but judging from the look on his face the operation and condition of Mrs. Roosevelt apparently were satisfactory.

WHEN CIDER GETS "HARD,"

Ceases to Be Soft Drink After Three Weeks, Says Official.

Wheeling, W. Va., April 15.—Cider ceases to become a soft drink three weeks after it has been made, according to a ruling just made by Prohibition Commissioner Fred O. Blue. He holds that the sale of cider after that time is a violation of the state prohibition laws. Cider, according to Commissioner Blue, accumulates more alcohol weekly and by the time three months have passed becomes true apple jack.

PLOTZ MAN OF HOUR IN MEDICAL CIRCLES

New York Bacteriologist Has Found Anti-Typhus Serum.

New York, April 15.—The man of the hour in New York medical circles today was Dr. Harry Plotz, the young bacteriologist of Mount Sinai hospital, who announced last night at a meeting of the New York Pathological society, that he had discovered an anti-typhus vaccine. In view of the recent spread of this dread disease in Serbia where many American physicians are leading in the fight against the disease the discovery was hailed by physicians as timely as well as important. The germ of typhus fever which the new vaccine is intended to combat, has

been christened by Dr. Wm. H. Welch, head of the medical department of Johns Hopkins university, as "Bacillus Typhi exanthematicus" Dr. Plotz announced. Dr. Plotz is 25 years old. He entered the pathological laboratory of Mount Sinai hospital as an interne to discover the origin of a fever called "Brill's disease" and isolating the germ which caused it, found that the bacillus was identical with that of Typhus fever.

NATION PAYS TRIBUTE TO LINCOLN'S MEMORY

Fiftieth Anniversary of Death of Martyr is Observed.

Washington, April 15.—Business of the United States government virtually was suspended today in recognition of the fiftieth anniversary of the death of Abraham Lincoln. In the national capital, as elsewhere, throughout the country and in foreign lands, wherever the American government is represented, the event was being observed in accordance with President Wilson's executive order. The president himself laid aside the cares of office as did other officials of the government to pay silent tribute to the memory of the martyred president. By direction of the president all the government departments were

closed for the day and the supreme court of the United States, headed by a former confederate soldier, Chief Justice White, held no session. Flags on all government buildings throughout the United States were at half mast, a tribute to Lincoln's memory, as were they also on all forts and reservations, naval stations and warships and upon American embassies, legations and consulates throughout the world. Postoffices were closed part of the day. The owners and captains of all American merchant vessels had been requested to display the national emblem at half-mast.

SCHEDULE IS CHANGED.

On account of another meeting at Hoagland, C. Henry, county agent, has found it necessary to change the date for the meeting to be held there, at which time C. G. Starr, hog production specialist from Purdue university, will be the principal speaker. Mr. Starr will be at Hoagland on Tuesday, April 20, and at Woodburn on Wednesday, April 21.

IN MEMORY OF LINCOLN.

Executive Offices Closed For the Day by Order of the President. The engineers employed on the survey for the proposed Toledo, Fort Wayne and Chicago barge canal are enjoying a day's vacation as the result of President Wilson's order that all executive offices be closed in honor of the memory of Abraham Lincoln, who was assassinated fifty years ago April 14. The navy recruiting station is also closed as a result of the president's order.

AUTO SPEEDER IS ARRESTED.

H. B. Willard was arrested Thursday by Motorcycle Officer Dan Kintz and taken to police headquarters where he was booked upon the double charge of exceeding the speed limit and operating a motor vehicle while intoxicated. His bond was fixed at \$500. Willard is said by the officer to have been drunk and cutting up high jinks about the city with his car.

AUBURN BARN MAKE LIVELY NIGHT BLAZE

Flames Finally Curbed Before Spread to Wider Endangered Area.

Auburn, Ind., April 15.—Fire practically destroyed the barn on the Dilgard and Graham lots on West Seventh street at about 1:30 Thursday morning. From the condition of affairs when the department started work, it was apparent that the blaze originated in the Dilgard barn, and was communicated from there to the other.

For awhile it seemed that the residence of Charles Raub and the barn on the J. I. Farley property would also be lost, but valiant work on the part of the firemen averted this.

Ray Dilgard, who conducts a furniture store, had used his barn for a garage and temporary store house. His Buick delivery truck, a number of mattresses and springs and the entire upstairs full of dining chairs was lost. Dr. Graham reports little loss except the structure. Some insurance was carried on both buildings.

Ezra Nicholai of Ashley, committed suicide by hanging Tuesday night. He has been mentally unbalanced for years, but was not considered harmful. The death came as a surprise to the members of the family, for he had never made any statements as to his intention to do such a rash act. The body was found in a barn on the Strayer property which he had selected as a suitable place.

News of the marriage of Charles Thatcher and Miss Marie Hebel looked out Wednesday, after the ceremony had been performed almost a week. They drove to Coldwater, Mich., where they were married, and after a short stay, returned to the Hebel home in this city. The newly-weds will live in Fort Myers, Florida, where Mr. Thatcher is in the real estate business.

Pratt vs. Bash Fertilizer Co. Will Be Heard by Judge Simmons.

On motion for a continuance and to change the day set for trial of the suit of the Pratt Engineering and Machine company, of Atlanta, Ga., vs. the Bash Fertilizing and Chemical company, of Fort Wayne, the superior court has fixed June 21 as the new day for trial. Rand, McNally & Co., Chicago publishers, have brought suit in the superior court against the Bash-Wycken company to collect \$220,322 on account. Hon. Abe Simmons, of Bluffton, who has been appointed special judge to hear the case on change of venue from Judge Yapple, came to Fort Wayne Thursday and received and disposed of the motion for a continuance. The suit of the Pratt company is for \$300,000, alleged to be due for work done on the plant of the Bash Fertilizer company. The defendant has filed a cross complaint for \$55,000 damages, claiming great losses by failure of the Pratt company to fulfill its contract.

Notes of the Courts.
In the circuit court a third paragraph has been filed in the suit of John Feders vs. Lucinda Snyder and the Tri-State Loan and Trust company, to collect \$350 on a mechanic's lien.

The superior court, in the case of Stouder and Barnett vs. George A. Harrison, has modified the injunction restraining the German-American National bank from paying to Anna Harrison money on deposit to her credit, permitting her to check against any sum there may be in excess of \$500, and continuing the injunction as to any sum up to that amount. The suit grew out of the management of the Temple theater by Harrison.

Archie Boland, defendant in a divorce suit brought by Hulda Boland, appeared in the superior court on citation for contempt and was given until April 30 to comply with the court's order as to paying in money for his wife and he is to report May 1.

Jerry Klopstein has filed in the superior court his bond of \$5,000 as receiver of the assets of Elwood C. Reichelderfer.

BOILER CONTRACT AWARDED TO BASS

Local Company's Bid Found Most Advantageous to the City.

After having had the bids for furnishing a 700-horsepower high pressure boiler to the city light and power works under consideration for two weeks, the board of works Thursday morning awarded the contract to the Bass Foundry & Machine works, of Fort Wayne. The price, including a Detroit stoker, was \$11,290 for a three-drum water tube sectional boiler. The type of stoker to be furnished is not, however, decided upon. The board and Mayor Hoesy have made a most painstaking investigation of the merits of the bids, having been on several trips out of the city to view the operations of different types of boilers that were in competition in the bidding. The Bass boiler was decided to be the best for the city on several practical accounts relating to the duty it must perform. The new boiler, which is made necessary by the greatly increased business of the city electric light and power department, will be installed as soon as possible. It will not be connected with the big brick smokestack at the municipal plant, but a steel stack 5½ feet in diameter and 110 feet high will be constructed for it. The brick stack is furnishing all the draft of which it is capable to the present steam equipment. Moreover, the nature of the city plant's business makes it imperative not to interrupt the service by shutting down the present equipment while the new boiler is being put in commission. It is figured that the steel stack will answer for a few years when another boiler will doubtless be needed and then a permanent brick stack will be erected of sufficient capacity for all future needs.

SEE A SOURCE OF REVENUE.
The park board has under consideration a plan by which it is believed a revenue of from \$1,500 to \$2,000 a year may be brought to that department by selling the bathing and refreshment privileges in Lakeside park to the highest bidder. Park Engineer Marriott Price has prepared plans and estimates for piping water from the St. Joe river to the lake and lagoons in the park and the cost of the undertaking is found to be feasible. This would keep the lake and lagoons well supplied with water at all times. Park Board Members D. N. Foster, Louis Fox and Prof. Louis Dorn, Park Board Secretary C. J. Stelas, Engineer Price and Prof. Schmidt and Kruse, of Concordia college, inspected that part of Anthony boulevard that runs between the college grounds and Concordia cemetery, Wednesday.

MAN AND WOMEN ARE HELD GUILTY; FINED

J. D. Kimberlin and Adeline Campbell, arrested several days ago by the police at a residence on South Hanna street, where they had been living as man and wife for several months, were tried in the city court Thursday on a charge of specific immorality and were found guilty by Special Judge Frank H. Kleckamp, a change of venue having been taken from Judge Kerr. Kimberlin was fined \$15 and costs and given a suspended sentence of thirty days. Attorneys McAdams and Hartzell, who appeared for the pair, took an appeal to the circuit court. The defense was common law marriage, both defendants testifying that they entered into a marriage contract several years ago and had cohabited together as man and wife ever since. There has been talk that the federal authorities would take action against Kimberlin under the Mann white slave law, for having brought the woman to Indiana from another state. The arrest grew out of a turbulent row in the Hanna street house, when Kimberlin aroused his paramour's jealousy by bringing home with him the 16-year-old daughter of his employer. Both Kimberlin and the Campbell woman have been married and separated from their former mates.

With Secretaries Bryan, Lane, Daniels and Garrison he remained throughout the game and warmly applauded the best plays. Then Hooper bounced a single over Pennock's head, LaJoie made a desperate try for the ball, but he could not hold it with one hand, and Pennock lost his chance for a no-hit mark. Frank Baker, who announced his retirement several weeks ago, witnessed the game. His place at third base was filled by Eddie Murphy, who did excellent work. JESS WILLARD'S LIFE STORY. COWBOY IS ARRESTED AND ESCAPES.

CHAPTER IV.
When the word came over the wire that Jess Willard had knocked out Jack Johnson the people in Oklahoma went wild about it. By cable somebody in authority offered Jess the job of state cattle inspector; others asked him to referee an auto race—and all the time he was a fugitive from justice from the state.

At that, the big fellow wanted to toss his theatrical contracts at nearly \$1,000 an appearance and hit out for Oklahoma to show the home boys what he had made of himself. He probably thought more of the adulation he would receive than the enormous money he could command as a vaudeville attraction. But wiser hands restrained him.

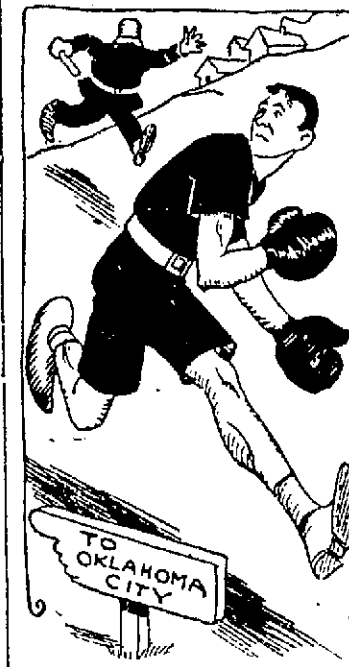

Back in 1911 when Jess was disqualified after fouling his opponent in his first fight he would not give up the fight game. To his friends he declared that he was the man who would lick Jack Johnson. At that time Johnson's defeat of Jeffries was still fresh in the minds of all men, and giants were being dragged from between plow handles and from blacksmith shops and made into "white hopes" overnight.

Jess got another match two months after his unsuccessful first affair and sent Ed Burke, a big fellow from San Francisco, into dreamland in the third round. Three weeks later he met Plunk, his first opponent, and knocked him out in three rounds.

They put Jess up against Al Mandino, Joe Cavanaugh, Bill Shiller, Frank Lyon and Mike Coniskey before the year was ended. The first three each took it on the chin and collapsed in short order. The second two stayed the ten rounds but were licked.

Jess, however, didn't get much for any of these fights and things didn't look well for the Willard family. He was even pinched for vagrancy, so deplete were his finances.

(Grand Rapids News).

What shall we name the Grand Rapids Central league ball team?

What it may be called at various times during the coming season is of secondary importance.

A new nickname, however, is a necessity.

Grand Rapids has labored along under the Black Sox title for years and many times the name has meant nothing more than a name.

There should be some live moniker attached to the Grand Rapids outfit this season.

Owners Essick and Noblett are now considering the proposition of inviting the fans into a general name contest with a view to securing something new, something live, something representative.

Fort Wayne has just passed through a "naming bee" and the terms of Soldiers and Railroaders have been relegated to a dead past. The Wayne bunch will now sail as the Cubs.

A contest with a season ticket as the prize has just been concluded. The reason for the name Cubs swung the balance in its favor. The lucky man said that Fort Wayne should be called the Cubs because of Babe Meyer's well established ability to take a bunch of cubs and train them into regular bears before a season is half over.

SHIFTS AT DAYTON.

Compton is Moving Things Around in His Outfield.

Dayton, O., April 15.—The shift which puts Clemens in the outfield and sends Fouts to second is working fine and it looks as though Manager Compton has hit upon a novel scheme. Ward is proving himself a second Tish Speaker, the way he takes them in out in the garden. He is fast and can cover acres of ground. Ward is an excellent judge of a fly ball, and he is probably better at this than he is on the grounds.

Schmutz stopped New York for a few innings but in the sixth inning the home team piled up five more runs on four doubles, a single, a steal and an error. Brown, who finished, was even less effective. Doyle, up five times, hit two doubles and three singles and scored four runs. Score: R.H.E.

SENTENCES TO JAIL ARE NOT SUSPENDED

Judge Kerr Alters Policy
With Men and Women
Who Sin.

That Judge Kerr in the city court has switched from his policy of suspending jail sentences in the cases of men and women convicted of immoral relations was made clear Thursday morning when he declined to suspend terms imposed in three instances. John Johnson and Anna Fisher, who were caught in a raid on a Clinton street rooming house several days ago, pleaded guilty—the woman to prostitution and the man to association—and were fined \$15 and costs and given fifteen days. The case was appealed to the circuit court and a bond filed by their attorney. George Stoner and Helen Hutter, caught in the same raid, also were held convicted. The girl was given into custody of Police Matron Winch and Stone was fined \$15 and costs and given fifteen days.

Hotel Proprietor Arrested.

J. D. Johnson, proprietor of a hotel on West Main street, was arrested on a charge of keeping a house of ill-fame, and Lulu Harrison and John Doe, arrested by Officers Bert Smith, Walter Kavanaugh and Bert Brown in a raid on the place Wednesday night, were charged, respectively, with prostitution and association. The three cases were continued until Friday morning. Johnson's bond was fixed at \$500 and Doe's and the woman's at \$200 each. The man furnished cash bond, but the girl was unable to give bond.

Porter Pays \$75 Fine.

James Porter, charged with violating the speed regulations, was fined \$75 and costs on conviction, after pleading not guilty, and the fine was paid. It was shown that he was driving his car at an unlawful speed Tuesday night when he had a wreck by collision with a tree at Washington and Hanna streets in trying to avoid a back that was coming from the opposite direction.

Mrs. Frank J. Belchin, wife of a saloonkeeper at Glasgow avenue and Washington streets, was so seriously hurt that she may be permanently crippled in one of her legs, and a woman said to be a Mrs. Thorp, of Indianapolis, was badly out and bruised about the face. Ed Stumpf, proprietor of the Four-Mile house, on the Lincoln highway east of Fort Wayne, was injured about the face slightly.

The three were passengers in Porter's car, having asked him to bring them to the city from Stumpf's place.

Other City Court Cases.

Charles Hollingsworth and W. G. Thomas, of Howard county, Ind., were fined \$10 and costs for driving automobiles without tags. They were arrested Wednesday by Traffic Officer Adkins as they were passing through the city with new cars they had just purchased at the factory in Auburn. It is understood the factory people paid the fines.

Frank Bessie, a well-dressed and rather genteel appearing white man, and Austin Dixon, Frank Williams, Tom Taylor, William Moore and William Hughes, negroes, were caught in a raid on the hobo camp along the Wabash track near the St. Mary's river, Wednesday afternoon. All were continued for periods of from one to five days for investigation.

Jake Rudisill, who resides north of the city, was charged with drunkenness, and turned loose to return home.

John Bensley, drunk, was in a shaky condition from excesses and on the verge of the "jimmies." He was continued until the 20th to get well.

Monroe Barker and John Curly, both denied the impeachment that they were drunk, but both were so well pickled as they stood for arraignment they could not be tried and were continued until Friday.

POULTRY THIEVES IN AGAIN.

Clyde E. DuBois and Grant Comerford, professional poultry thieves of this city, are in jail at Bluffton for extensive operations in Wells county. They were caught after a pursuit of two hours by Sheriff Johnson and Deputy Albright, of Wells county, who were aided by a large posse of armed farmers. The men were surrounded by the cordons in a dense woods south of Bluffton. They had been discovered in a poultry house belonging to William Bennett and escaped in their wagon, but were at length run to ground. DuBois and Comerford were arrested by Sheriff Gladioux and his deputies December 17 after they had been trailed all night by Lemon Blume and Virgil McKurt, two farmer boys, who had been on the look-out for them. The thieves had more than 100 chickens in their wagon, having raided henrosts at half a dozen different St. Joe township farms that night. They were convicted and fined \$5 and costs and given seventy days in jail. They have been out but a short time.

THAW CASE ARGUMENT TODAY.

Question of Man's Sanity and Freedom to Be Taken Up.

New York, April 15.—Argument on the motion of Harry K. Thaw's counsel for a jury trial to decide whether he is sane and ought to be given his liberty, was set for a hearing by Supreme Court Justice Newburger this afternoon. Thaw's counsel hoped also that the appellate division would hand down a decision today on their motion that the slayer of Stanford White be sent back to New Hampshire. This motion was made in an appeal from an order of Justice Page directing that Thaw be sent back to Matteawan asylum.

Court Denies Them Title to Valuable Tide Lands.

Los Angeles, Cal., April 15.—The Sepulveda heirs, representing an old Spanish family, lost title in the superior court yesterday to a strip of tide land variously estimated to be worth from \$5,000,000 to \$50,000,000. The suit was brought by Susana Sepulveda and others to quiet title to the land upon the ground that although it was tide land, it was expressly included in a Spanish grant of 1846 and never recognized by the United States. The heirs, it was said today, will appeal to the state supreme court.

Court Denies Them Title to Valuable Tide Lands.

Los Angeles, Cal., April 15.—The Sepulveda heirs, representing an old Spanish family, lost title in the superior court yesterday to a strip of tide land variously estimated to be worth from \$5,000,000 to \$50,000,000. The suit was brought by Susana Sepulveda and others to quiet title to the land upon the ground that although it was tide land, it was expressly included in a Spanish grant of 1846 and never recognized by the United States. The heirs, it was said today, will appeal to the state supreme court.

16,000 CARPENTERS TO STRIKE TONIGHT

Chicago, April 15.—Strike of 16,000 union carpenters was to go into effect at the close of work today as a result of the failure of union leaders to agree on a wage scale with the Employers' association. Officials of the carpenters' district council had demanded an increase from sixty-five to seventy cents an hour for their men. The Employers' association proposed an increase of two and one-half cents an hour, which was declined.

The strike of the carpenters it was said today will throw out of employment practically 100,000 men by stopping work in other crafts.

William Hale Thompson, mayor-elect of Chicago, was appealed to by members of the Carpenters' union to use his influence in settling the strike.

GYMNASTIC EXHIBITION.

Annual Entertainment at Turner Hall Wednesday Evening.

That the gymnastic classes under the direction of Prof. Henry Meyer, physical director of the Vorwaerts Turnverein, are doing splendid work was demonstrated Wednesday evening at the annual exhibition given at Turner hall. All present agreed that it was the most successful

event of its kind that has ever been staged under the auspices of the Turnverein. Every seat in the large auditorium of the Turner hall was occupied.

Many of the drills given under the direction of Prof. Meyer were new while many of the acts performed by members of the men's class were exceedingly difficult. The work of the ladies' class was also highly pleasing. The music was furnished by the Heilmann orchestra.

Joseph Schooler, 425 Holman street, who was recently operated on for stomach trouble, is recovering nicely.

SOUVENIRS FOR THE LADIES

DISTRESSING RASH COVERED FACE

Head and Ears of Child. Kept Getting Worse. Very Irritating. Face Quite Disfigured. Used Cuticura Soap and Cuticura Ointment. Trouble Entirely Healed.

Clay Center, Neb.—"I want to tell what Cuticura Soap and Ointment has done for my little girl. Her face, head and ears were just completely covered with a sore eruption. It made its appearance in the form of a rash and kept getting worse and spread until her face and ears were almost a solid mass, very irritating and causing great itching and distress. It made her restless at night and her face was quite disfigured.

"I tried different remedies suggested but nothing we did brought any relief. Finally I decided to give Cuticura Soap and Ointment a trial. I washed her face with Cuticura Soap, dried it lightly and applied Cuticura Ointment. I could notice an improvement with the first application and in two weeks' time the trouble was entirely healed." PLAIN DUTY, SAYS MILLIONAIRE HOBO

Why He Forsook Luxuries for Life of the Common Tramp.

(By Mark Larkin.)

San Francisco, April 13.—The richest hobo in the world claims to be a pauper. He is Dr. James Eads How, of St. Louis, the "Millionaire Hobo."

Strange, indeed, is the life of this man. He has attended three colleges—Harvard, Oxford and the College of Physicians and Surgeons of St. Louis—

James Eads How

and he is an heir to one of the biggest fortunes in the middle west. Yet he has renounced all this wealth and the prestige it would bring him to accept the most lowly lot in the world—the lot of the hobo.

It is his ambition to organize, educate and protect the labor of the world; especially the migratory labor—the hobo element.

Captain James E. Eads, inventor, and famed as the builder of the Eads bridge at St. Louis, was Dr. How's grandfather. Therefore, Dr. How is one of the heirs to the vast Eads fortune.

But Dr. How lays no claims to this fortune, for the reason that he feels that he has no right to wealth that he had no hand in making. It is Dr. How's theory that his share of that money is unearned increment, and therefore belongs to the commonwealth. Dr. How doesn't even know how much wealth he will eventually inherit, and what he will do with the money is a problem that he never has considered.

"It is a religious work with me—this labor work," Dr. How stated. "I felt that the call was divine. There was a great mass of people suffering, swarming, moiling, seeking a purpose, but with no one to guide them aright. I felt the call to step in and lead them. It was not a matter of sacrifice on my part, just plain duty. And now I deem it my duty to instruct them that through labor the world's business can be done in a co-operative way."

"Only about 20 per cent. of the migratory workers are enlisted in organizations of any nature, leaving the great surplus to be educated," said Dr. How. "This will give you some idea of the magnitude of the work before us. There are about 5,000,000 unemployed in the United States alone."

For fifteen years Dr. How has worked to better the condition of the hobo. During that time he has been one of them, eating their bread and drinking their wine, always teaching his doctrine of organization and better conditions.

Through the efforts of this great pioneer the vast rabble of unemployed and migratory workers is being organized. The progress is slow and tedious, but the many hobo conventions of recent years portend the coming of the time when the great army of seasonal and migratory workers will be moulded into one tremendous unit.

In carrying his message to the hoboes Dr. How has ridden the roads and served his apprenticeship as a brake-beam tourist. In fact, there is nothing in the lot of the men he is trying to

RYAN RELIEVED OF DUTY.

U. S. Recruiting Officer to Be Succeeded by Lieut. Edward Coppock.

Washington, April 14.—The war department has issued an order relieving Captain Thomas F. Ryan, United States army, as recruiting officer of the army at Indianapolis. It has detailed Edward R. Coppock, United States army, Second cavalry, to succeed him.

Captain Ryan was recently cited for contempt in the court of Judge Moses Lairy, of Logansport, because he wrote a letter to a Logansport paper taking exception to the action of the court in giving a prisoner his choice of going to jail or enlisting in the army or navy.

Lieutenant Coppock was born and reared in Indiana and was graduated from the infantry and cavalry school in 1904. He entered the service as a private in troop F, Eighth cavalry, nineteen years ago and was commissioned a second lieutenant in 1901. He was assigned to succeed Captain Ryan as the recruiting officer at Indianapolis at his own request, according to the state-

ment made today by the war department.

TAKING CARE OF THE CHILDREN.

No parent would consciously be careless of the children. Joe A. Rozmarin, Clarkson, Neb., uses Foley's Honey and Tar for his two children for croup, coughs and colds. He says: "We are never without Foley's Honey and Tar in the house." A distressing cough, sleepless nights, and raw, inflamed throat lead to a run-down condition in which the child is not able to resist contagious or infectious diseases. Foley's Honey and Tar is truly healing and prompt in action. It relieves coughs, colds, croup and whooping cough. Dreier Drug Co.—Adv.

SUCH A RELIEF.

The maid-of-all-work is as black as a pot when there comes a peal at the front door bell. Mistress—Don't you go, Jane, but just peep and see who it is. Jane (after peeping)—Oh, it's all right, mum; it's only the master. I thought it was a gentleman.

Why Do They Call It a Honeymoon?

The word "Honeymoon" which is commonly used to describe the first few weeks after marriage, has always meant the first month or moon after marriage, but does not have any reference to the month or moon excepting as that describes a certain period of time.

The word originated in an old custom, quite common among newly married couples among the ancient Teutons of drinking a kind of wine made from honey during the first thirty days after being married.

In these days newly married couples generally take a trip away from home for a short or longer period after their wedding day and this is called the honeymoon whether it is but a few days or three months or more. The custom of drinking wine made from honey has been abandoned so that the word is now used in an entirely different sense than formerly.

Why Does a Bee Have a Sting?

The bee's sting is given him as a weapon of defense. Primarily it is for the sole purpose of enabling him to help defend the hive from his enemies. Sometimes when he is attacked away from the hive he uses his sting to defend himself. When he does so, he injects a little quantity of poison through the sting and that is what causes the inflammation.

THE MARKETS

20 CENTS IS ADDED TO PRICE ON FLOUR

With wheat adding another cent and reaching the \$1.55 mark Thursday, one local dealer advanced his price on flour 20c a barrel, again reaching the price which was asked when wheat hit the record price of the season. The wheat market has been very strong for the past week and prices have been going up slowly but steadily and there seems to be no stopping point in sight.

The city wheatmaster reports that the corn market on Barr street Thursday morning was the steadiest it has been for over a year. All thirteen loads which tipped the city scales brought 75c a bushel. Two loads of oats were weighed, one bringing 57c and the other 58c a bushel. The hay prices remain at \$14.00 to \$15.50.

The produce market remains steady, eggs at 15c a dozen. The live stock market quotations remain unchanged. The average price paid for hogs is \$8.75 while extra firsts bring \$8.85.

CHICAGO GRAIN AND PROVISIONS.

Chicago, April 15.—Wheat swept higher in price today as a result of a general rush to buy. Active profit taking on the bulge led, however, to a material setback. After opening 1/4c to 2c higher, the market rose about 1/2c more, and then receded about 1c.

Corn hardened with wheat. Opening prices, which ranged 1/4c to 1/2c higher, were followed by additional gains and then a moderate sag.

Pit speculators who sold oats found no company and quickly ran for cover. Higher prices for hogs lifted provisions.

THE DAY ON WALL STREET.

New York, April 15.—Early dealings in the stock market today pointed to another session of extreme activity. Initial prices suggested further profit taking by reason of the irregularity of the movement. Bethlehem Steel opened with a lot of 500 shares at 135 to 136, a minimum overnight rise of three points. Gains of one to five points were registered by various industrial and equipment issues, while some of the more important railway shares like Union Pacific, New York Central, Atchafson and St. Paul were fractionally lower.

Trading lost none of its feverish activity during the morning session, the overturn of the first two hours approximating yesterday's enormous total. Business was on the broadest scale thus far witnessed, taking in many issues not heretofore quoted. There was a confusion of gains and losses and leading stocks continued to evince further irregularity. Reading's course being especially erratic. London and other foreign countries were sellers here to a considerable extent and local interests, especially the trading element, renewed their operations on the short side. Bonds were irregular.

Inevitable profit taking took the edge off the late rise, leaders declining one to two points from their best. The closing was strong.

Dealings in stocks today surpassed all recent records both in respect to activity and number of issues traded in. Realizing sales caused marked recessions at the end.

SECONDARY ARREST IN MURDER ACTION

New York, April 15.—A secondary arrest was made today by detectives investigating the murder of Miss Claudia Hansbury, of Lansingburg, a suburb of Troy, N. Y., whose body was found last Saturday buried in a pile of rocks. Mrs. Bertha Wilson was held as a material witness at the request of District Attorney Martin.

According to the police, Mrs. Wilson has admitted that she introduced Miss Hansbury to Rafael Villo, the contractor, arrested last night on a charge of homicide. Villo was cross-examined at police headquarters during the night. The police assert that he said he had known Miss Hansbury and that she had written a letter to him about Christmas time but that he denied knowledge of how she met her death.

VICTIM NOT MISS HANSBURY.

Troy, N. Y., April 15.—Claudia Hansbury, described by the New York police as a girl whose body was found in a vacant lot in the Bronx last Saturday, is at her home here and has not been in New York.
